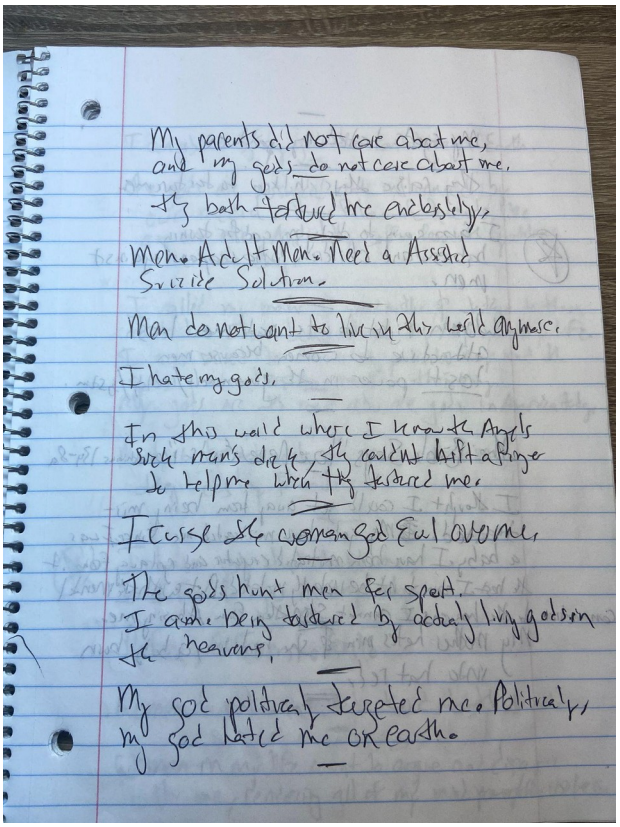
The Book of Nathaniel 092022 100322 Evil Angels: Babylonian Whores

Author:
N. M. A. Burman



My parents did not care about me,
and my gods do not care about me.
My both tortured me endlessly.

Men. Adult Men. Need a Assisted
Suicide Solution.

Man do not want to live in this world anymore.

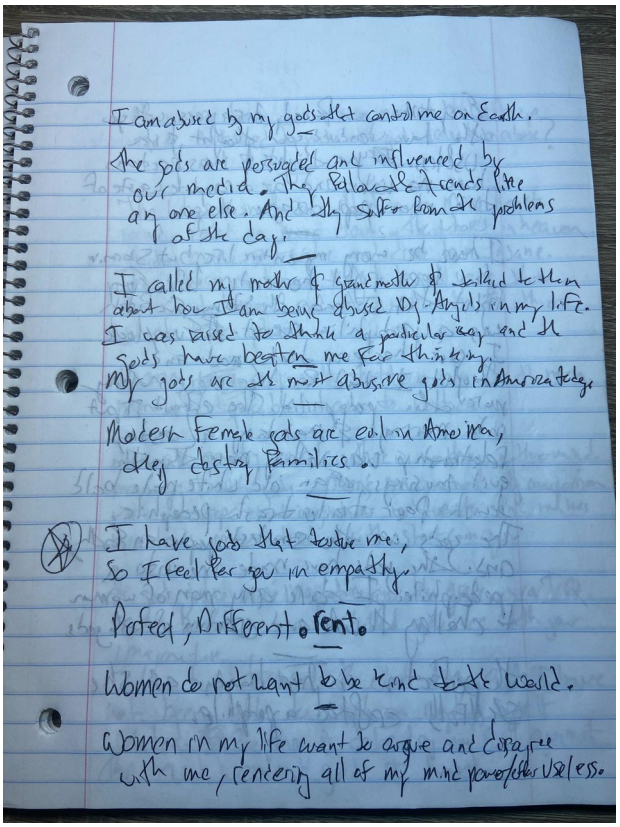
I hate my gods.

In this world where I know the Angels
Such men's die 4, they couldn't lift a finger
to help me when they tortured me.

I curse the woman God Eul over me.

The gods hunt men for sport.
I am being tortured by actually living gods in
the heavens.

My god politicaly tortured me. Politicaly,
my god hated me on earth.



I am abused by my gods that control me on Earth.

The gods are persuaded and influenced by our media. They believe & treats like any one else. And they suffer from the problems of the day.

I called my mother & grandmother & talked to them about how I am being abused by Angels in my life. I was raised to think a particular way and the gods have beaten me for thinking my gods are the most abusive gods in American today.

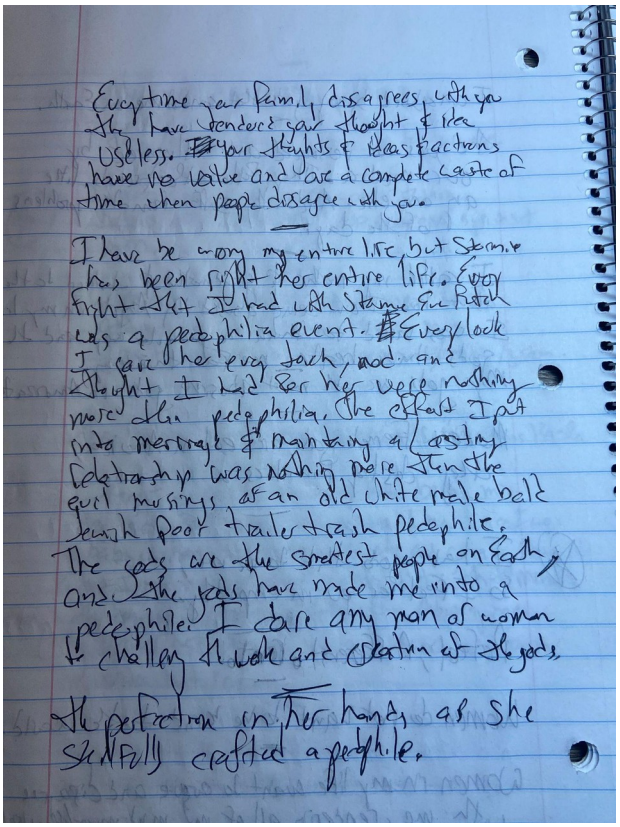
Modern Female gods are evil in America, they destroy families.

I have gods that torture me, so I feel for you in empathy.

Perfect, Different, rent.

Women do not want to be kind to the world.

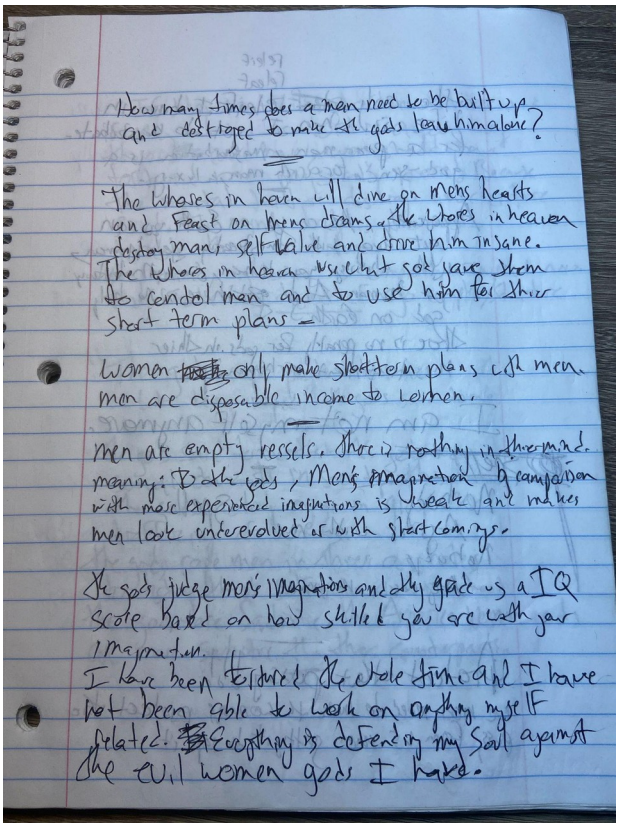
Women in my life want to argue and disagree with me, rendering all of my mind powers/efforts useless.



Everytime your family disagrees with you they have rendered your thought & idea useless. Your thoughts & ideas & actions have no value and are a complete waste of time when people disagree with you.

I have been wrong my entire life, but Stormie has been right her entire life. Every fight that I had with Stormie Sue Patch was a pedophilia event. Every look I gave her every touch, and one thought I had for her were nothing more than pedophilia. The effort I put into marriage & maintaining a lasting relationship was nothing more than the evil musings of an old white male bald trash poor trailer trash pedophile. The gods are the greatest people on Earth, and the gods have made me into a pedophile. I dare any man or woman to challenge the work and creation of the gods.

The perfection in her hands as she skillfully crafted a pedophile.



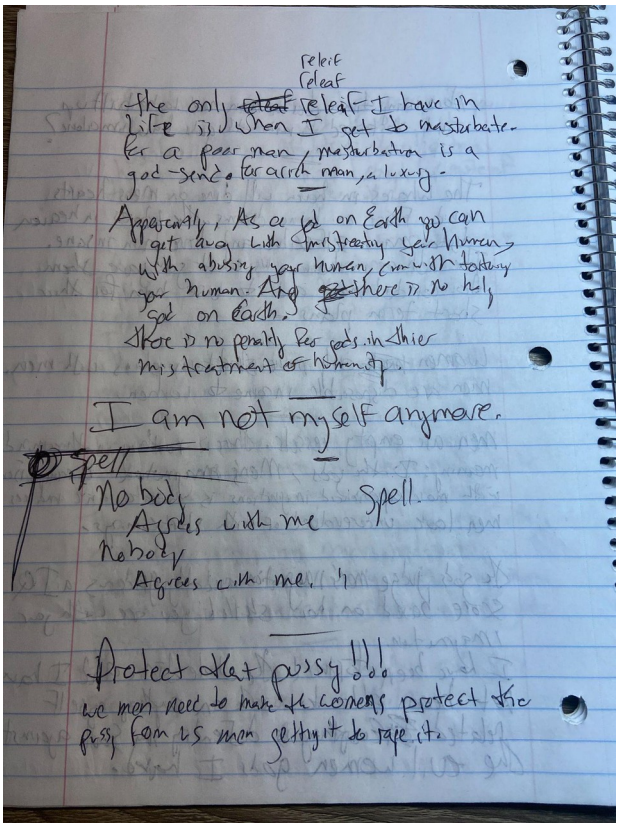
How many times does a man need to be built up and destroyed to make the gods leave him alone?

The whores in heaven will dine on mens hearts and feast on mens dreams. The whores in heaven destroy mans self value and drive him insane. The whores in heaven use what god gave them to control man and to use him for their short term plans.

women only make short term plans with men. men are disposable income to women.

men are empty vessels. there is nothing in their mind. meaning: to the gods, mens imagination in comparison with more experienced imaginations is weak and makes men look underevolved or with short comings.

the gods judge mens imaginations and they grade us a IQ score based on how skilled you are with your imagination.
I have been tortured the whole time and I have not been able to work on anything myself related. Everything is defending my soul against the evil women gods I hate.



releif
releaf

the only ~~releaf~~ releif I have in life is when I get to masterbate. for a poor man, masturbation is a god-send. for a rich man, a luxury.

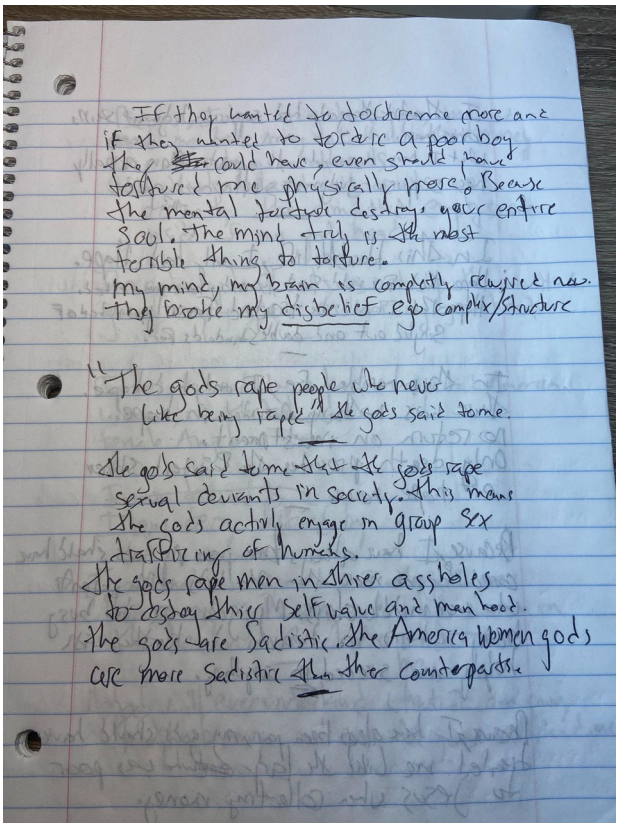
Apparently, As a god on Earth you can get away with mistreating your human, with abusing your human, even with fathering your human. And ~~there~~ there is no holy god on earth.
There is no penalty for gods in their mistreatment of humanity.

I am not myself anymore.

~~Spell~~

No body Agrees with me Spell.
Nobody
Agrees with me. 4

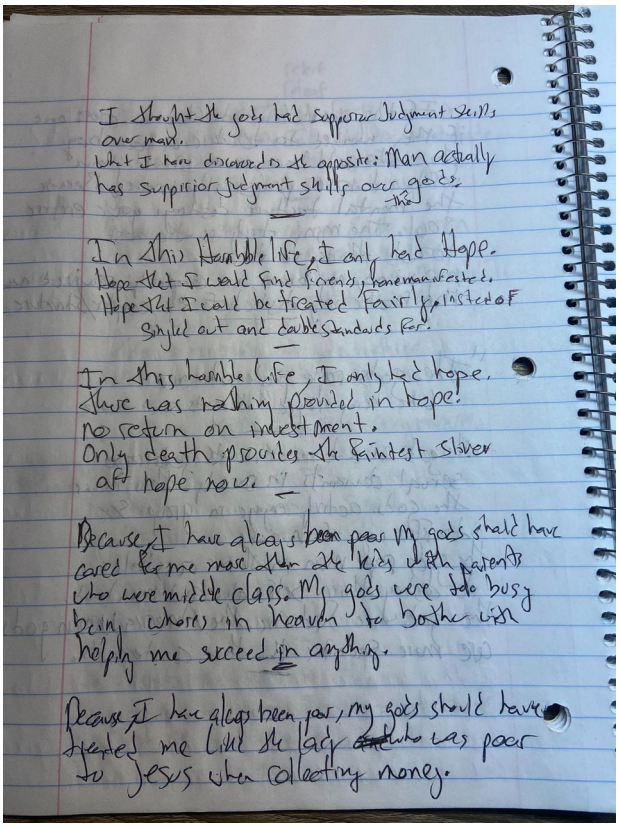
Protect that pussy!!!
we men need to make it women protect the pussy from us men getting it to rape it.



If they wanted to dehumanize more and if they wanted to torture a poor boy they could have, even should have tortured me physically more. Because the mental torture destroys your entire soul. The mind truly is the most terrible thing to torture.
my mind, my brain is completely rewired now. They broke my disbelief ejo complex/structure

"The gods rape people who never like being raped" the gods said to me.

the gods said to me that the gods rape sexual deviants in secret. this means the gods actively engage in group sex trafficking of humans.
the gods rape men in their assholes to destroy their self value and manhood.
the gods are sadistic. the American women gods are more sadistic than their counterparts.



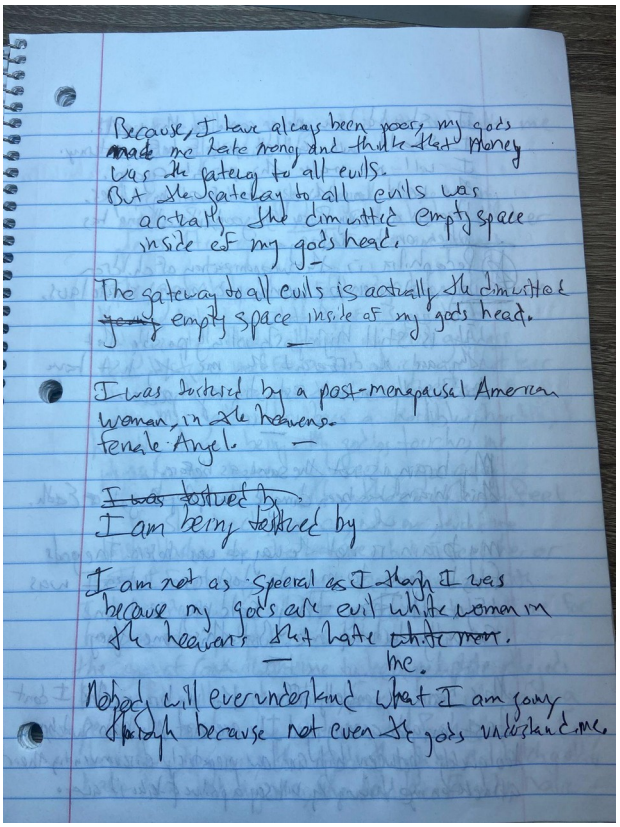
I thought the gods had superior judgment skills over man.
What I now discovered is the opposite: Man actually has superior judgment skills over gods.

In this Horrible life, I only had Hope.
Hope that I could find friends, homemanifested.
Hope that I could be treated Fairly, instead of Singled out and double standards for.

In this horrible life, I only had hope.
There was nothing provided in hope.
no return on investment.
Only death provides the faintest sliver of hope now.

Because, I have always been poor my gods should have cared for me more than the kids with parents who were middle class. My gods were too busy being whores in heaven to bother with helping me succeed in anything.

Because, I have always been poor, my gods should have treated me like the lady who was poor to Jesus when collecting money.



Because, I have always been poor, my gods made me hate money and think that money was the gateway to all evils.
But the gateway to all evils was actually the diminished empty space inside of my gods head.

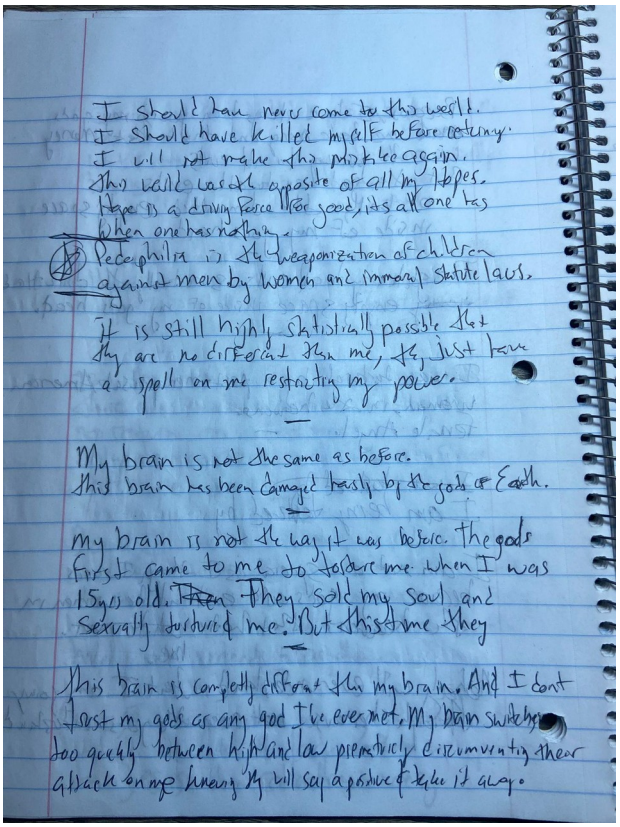
The gateway to all evils is actually the diminished ~~empty~~ empty space inside of my gods head.

I was tortured by a post-menopausal American woman, in the heavens.
female Angel.

~~I was tortured by~~
I am being tortured by

I am not as special as I thought I was because my gods are evil white women in the heavens that hate ~~white men~~ me.

Nobody will ever understand what I am going through because not even the gods understand me.



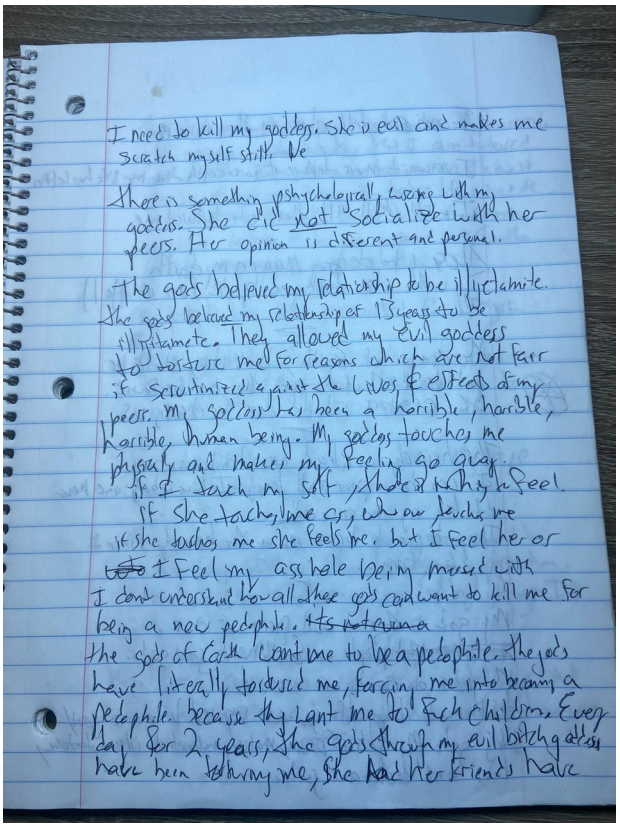
I should have never come to this world.
I should have killed myself before coming.
I will not make this mistake again.
This world is a opposite of all my hopes.
Hope is a driving force for good, its all one has when one has nothing.
Pedophilia is the weaponization of children against men by women and immoral statute laws.

It is still highly statistically possible that they are no different than me, they just have a spell on me restricting my power.

My brain is not the same as before.
This brain has been damaged heavily by the gods of Earth.

my brain is not the way it was before. the gods first came to me to torture me when I was 15yrs old. ~~Then~~ They sold my soul and sexually tortured me. But this time they

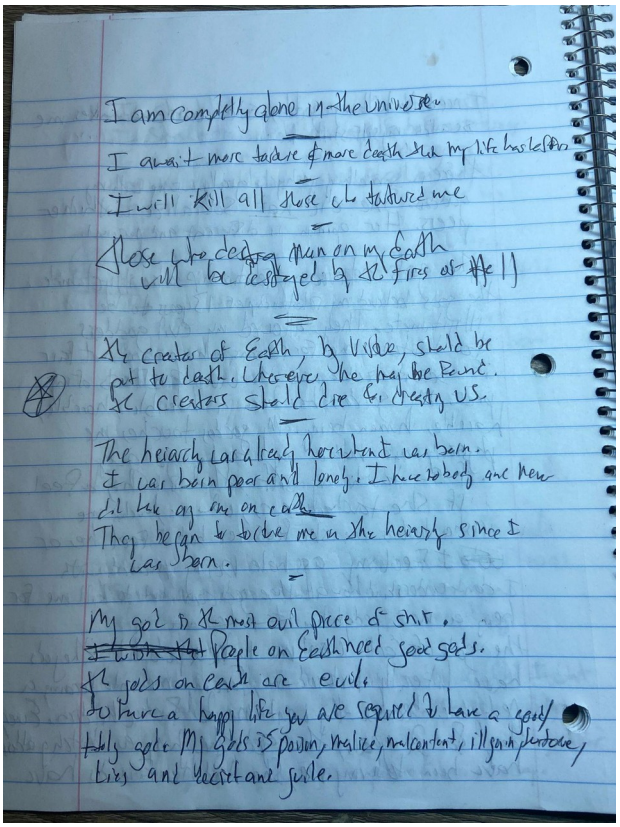
This brain is completly different than my brain. And I dont trust my gods or any god I've ever met. My brain switches too quickly between high and low prematurely circumventing their attack on me knowing my will say a positive & take it away.



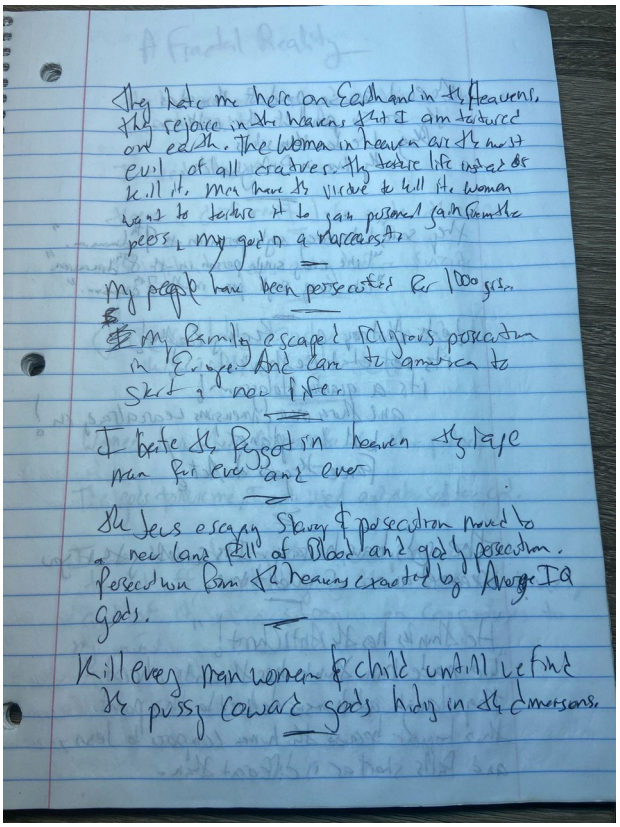
I need to kill my goddess. She is evil and makes me scratch myself still. Me

There is something psychological wrong with my goddess. She did not socialize with her peers. Her opinion is different and personal.

The gods believed my relationship to be illegitimate. The gods believed my relationship of 13 years to be illegitimate. They allowed my evil goddess to torture me for reasons which are not fair if scrutinized against the lives & effects of my peers. My goddess has been a horrible, horrible, horrible, human being. My goddess touches me physically and makes my feelings go away. If I touch my self, there is nothing to feel. If she touches me or, when she touches me if she touches me she feels me. but I feel her or ~~she~~ I feel my asshole being messed with I don't understand how all these gods can want to kill me for being a new pedophile. ~~It's not even a~~
the gods of Earth want me to be a pedophile. The gods have literally tortured me, forcing me into becoming a pedophile. because they want me to fuck children. Every day for 2 years, the gods through my evil bitch goddess have been torturing me, She And her friends have



I am completly alone in the universe.
I await more torture & more death than my life has left to.
I will kill all those who tortured me
Those who destroy them on my Earth
will be destroyed by the fires of Hell
The creator of Earth, by Virbe, shall be
put to death. Wherever he may be found.
The creators shall die & destroy U.S.
The heiarchy has already hornybrent has born.
I was born poor and lonely. I have to body and never
did like any one on earth.
They began to torture me in the heiarchy since I
was born.
My goal is the most evil piece of shit.
~~I wish that~~ People on Earth need good gods.
The gods on earth are evil.
To have a happy life you are required to have a good/
holy gode. My Gods is poison, malice, malcontent, illgotten pleasure,
Lies and deceit and guile.



They hate me here on Earth and in the Heavens. They rejoice in the heavens that I am tortured on earth. The women in heaven are the most evil of all creatures. They torture life instead of kill it. Men have the virtue to kill the woman want to torture it to gain personal gain from the pees, my god in a narcissist.

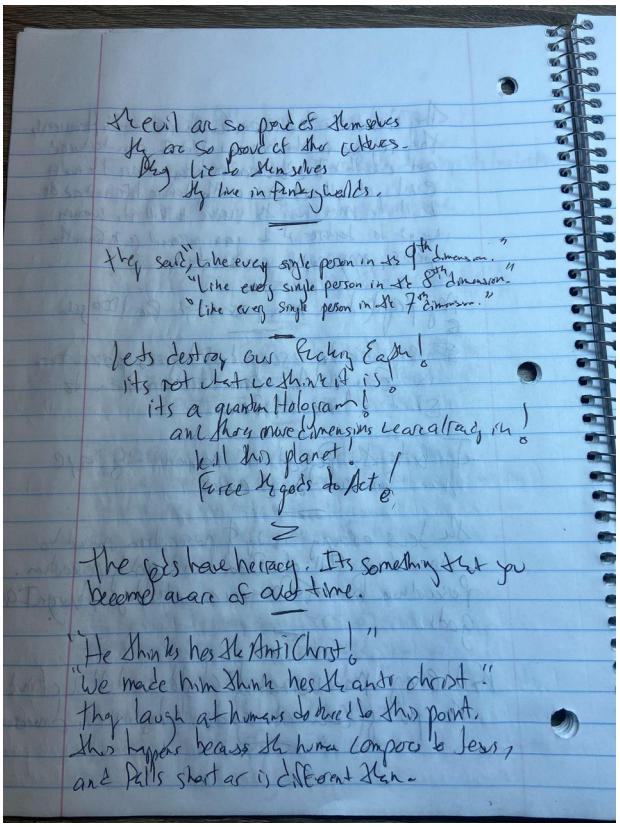
My people have been persecuted for 1000 yrs.

My family escaped religious persecution in Europe. And came to America to start a new life.

I hate the Pagan in heaven they rape men for eve and ever.

The Jews escaping slavery & persecution moved to a new land full of blood and gore by persecution. Persecution from the heavens created by Average IQ gods.

Kill every man women & child until we find the pussy coward gods hidy in the dimensions.



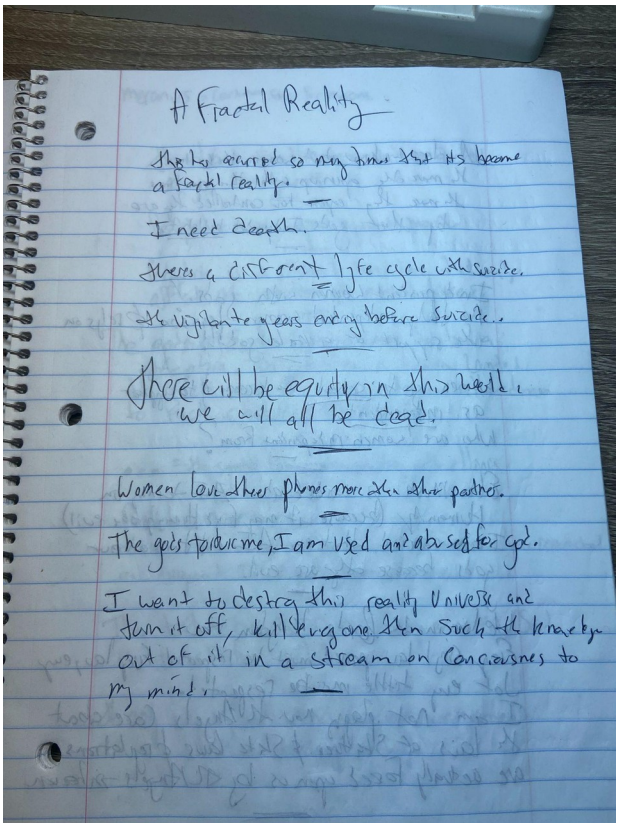
the evil are so proud of themselves
they are so proud of their cultures.
they lie to themselves
they live in fantasy worlds.

they said, "like every single person in its 9th dimension."
"like every single person in the 8th dimension."
"like every single person in the 7th dimension."

lets destroy our fucking Earth!
its not that we think it is.
its a quantum Hologram!
and those more dimensions we are already in!
kill this planet!
force the gods to act!

the gods have hierarchy. its something that you become aware of over time.

"He thinks he's the Anti Christ!"
"we made him think he's the anti christ."
they laugh at humans developed to this point.
this happens because the human compares to less,
and falls short as a different them.



A Fractal Reality

[illegible] occurred so many times that it's become a fractal reality.

I need death.

There's a different life cycle with suicide.

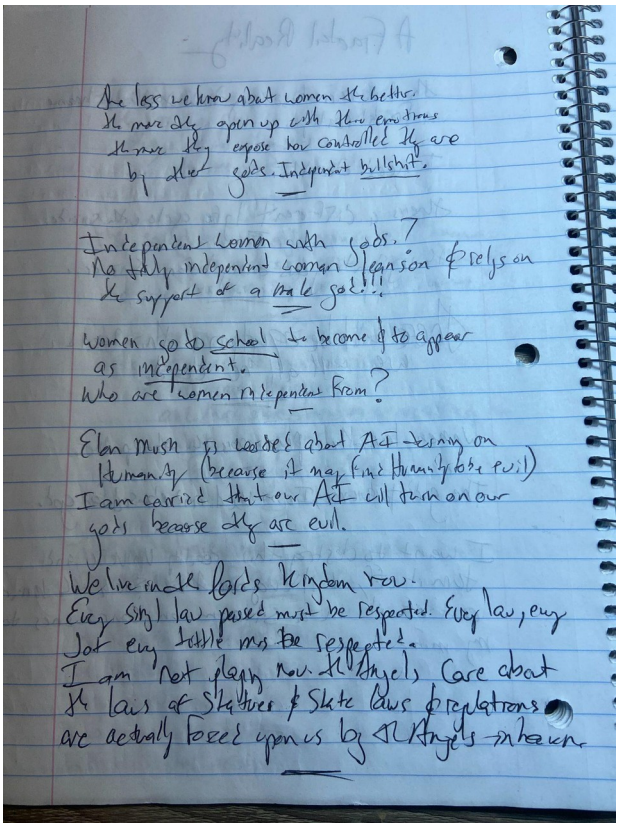
The vigilante years ending before suicide.

There will be equity in this world.
We will all be dead.

Women love three phones more than other partners.

The gods torture me, I am used and abused for god.

I want to destroy this reality Universe and turn it off, kill everyone. Then suck the knowledge out of it in a stream on Conciousnes to my mind.



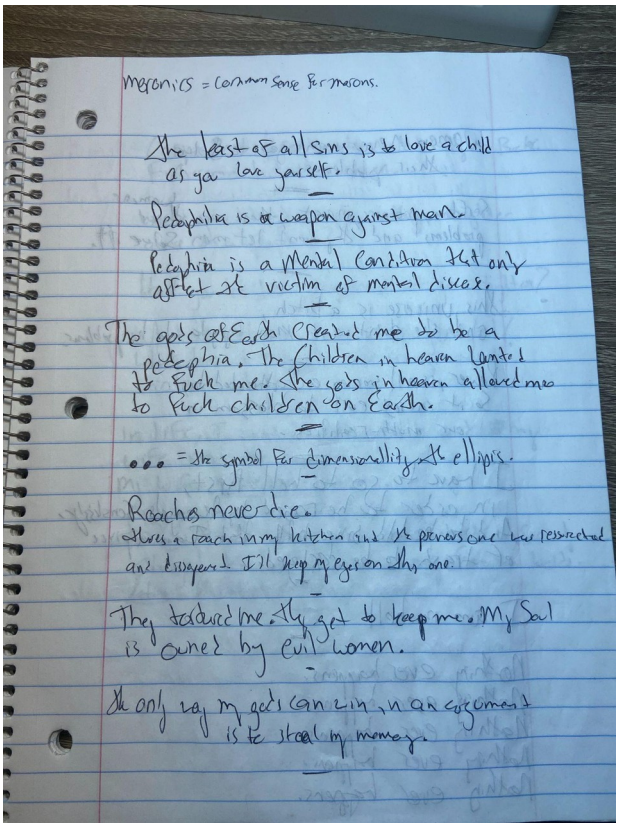
The less we know about women the better.
The more they open up with their emotions
the more they expose how controlled they are
by their gods. Independent bullshit.

Independent women with gods.?
No fully independent woman [illegible] son & relys on
the support of a male god!!!

women go to school to become & to appear
as independent.
Who are women independent from?

Elon Musk is worried about AI turning on
Humanity (because it may find humanity to be evil)
I am worried that our AI will turn on our
gods because they are evil.

We live under lords kingdom now.
Every single law passed must be respected. Every law, every
Jot every tittle must be respected.
I am not playing now. If Angels care about
the laws of Statutes & State laws & regulations
are actually forced upon us by the Angels in heaven.



Meronics = common sense formations.

The least of all sins is to love a child as you love yourself.

Pedophiles is a weapon against man.

Pedophia is a mental condition that only affect the victim of mental disease.

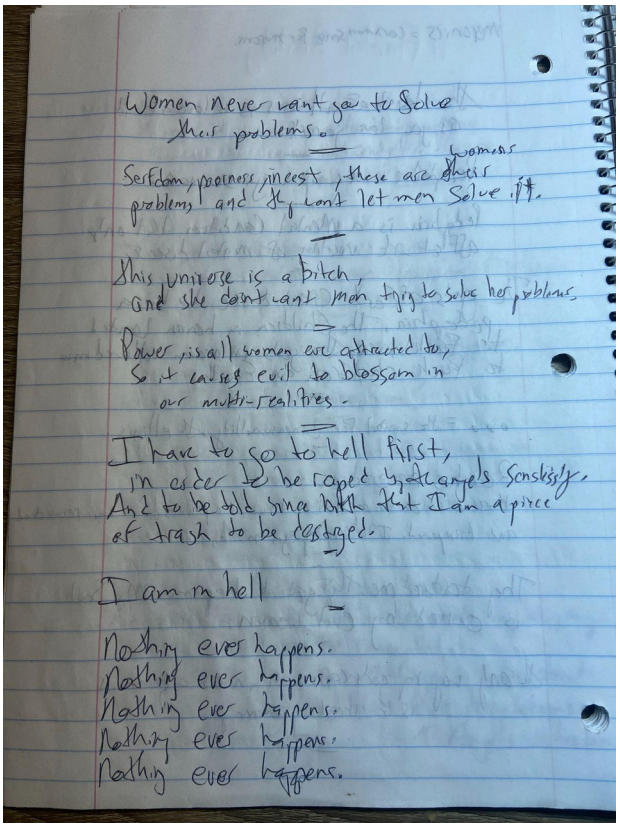
The gods of Earth created me to be a pedophia. The children in heaven wanted to fuck me. The gods in heaven allowed me to fuck children on Earth.

... = the symbol for dimensionality, the ellipis.

Roaches never die.
others a roach in my kitchen and the person once I've restricted are disappeared. I'll keep my eyes on this one.

They tortured me. They get to keep me. My Soul is owned by evil women.

The only way my gods can win, in an argument is to steal my memory.



Women never want you to Solve
their problems.

Serfdom, poorness, incest, these are womens
problems, and if I can't let men Solve it.

This universe is a bitch,
and she don't want men trying to solve her problems.

Power, is all women ever attracted to,
So it causes evil to blossom in
our multi-realities.

I have to go to hell first,
in order to be raped by fallen angels senselessly.
And to be told since birth that I am a piece
of trash to be destroyed.

I am in hell

Nothing ever happens.
Nothing ever happens.
Nothing ever happens.
Nothing ever happens.
Nothing ever happens.

To suit the needs of women & children, Society changed the language to have only Feminine words.

You people searching for god piss me off the most. God literally puts everything in front of you. Everything. You have no choice in the matter, you do what your god tells you to do. (no I don't, your god kill you that too)

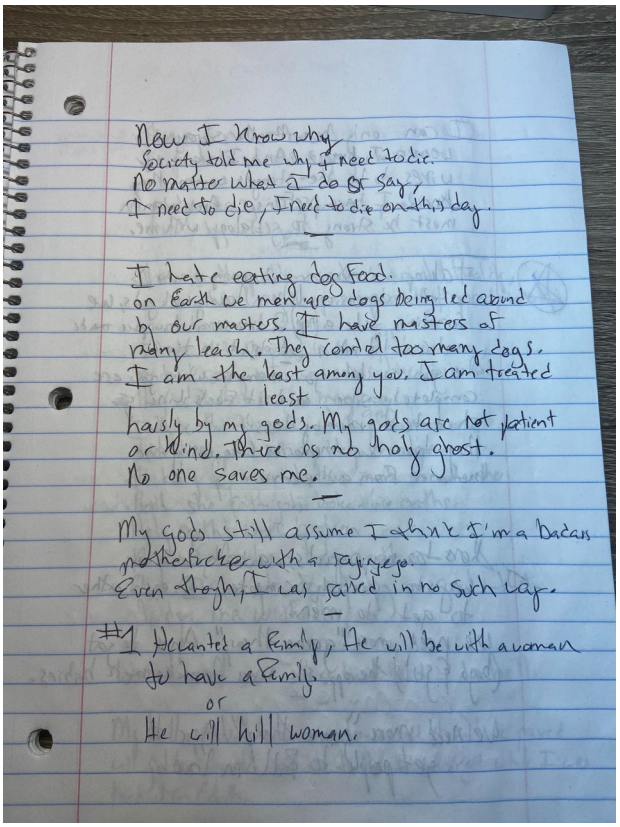
You're not allowed to question things with the gods around.

Trash to power - pussies (pussypower)

The god lense
How your god perceives you through their personality held understanding of cultural norms.

My god perceived me as a pedophile, to be killed, to be tortured, to be driven insane, to have my reputation & character destroyed.
My god ~~[illegible]~~ never perceived me as a pedophile.

The gods cause a problem for us many and torture him for it.



Now I know why
Society told me why I need to die.
No matter what I do or say,
I need to die, I need to die on this day.

I hate eating dog food.
on Earth we men are dogs being led around
by our masters. I have masters of
many leash. They control too many dogs.
I am the last among you. I am treated
least
harsly by my gods. My gods are not patient
or kind. There is no holy ghost.
No one saves me.

—

My gods still assume I think I'm a badass
motherfucker with a swagger.
Even though, I was raised in no such way.

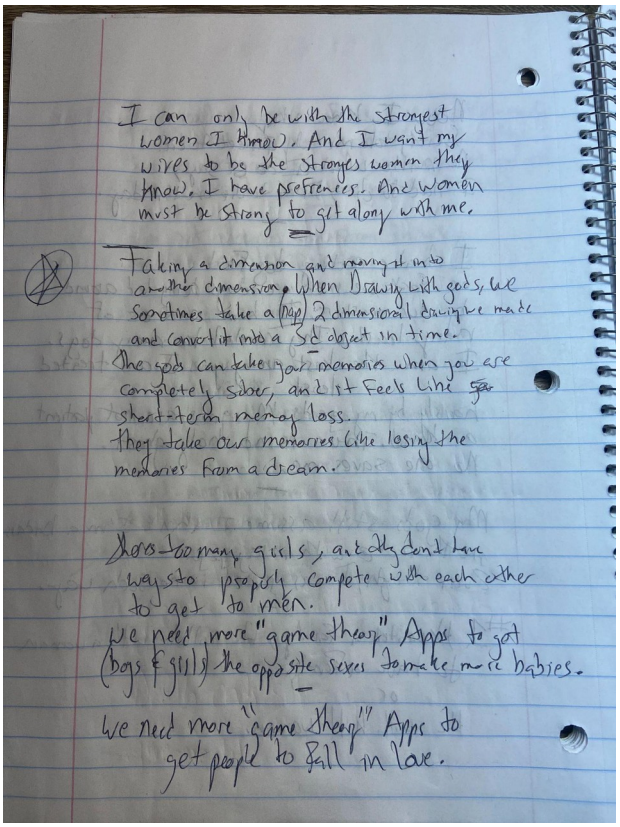
#1 He wanted a family, He will be with a woman
to have a family.
or
He will kill woman.



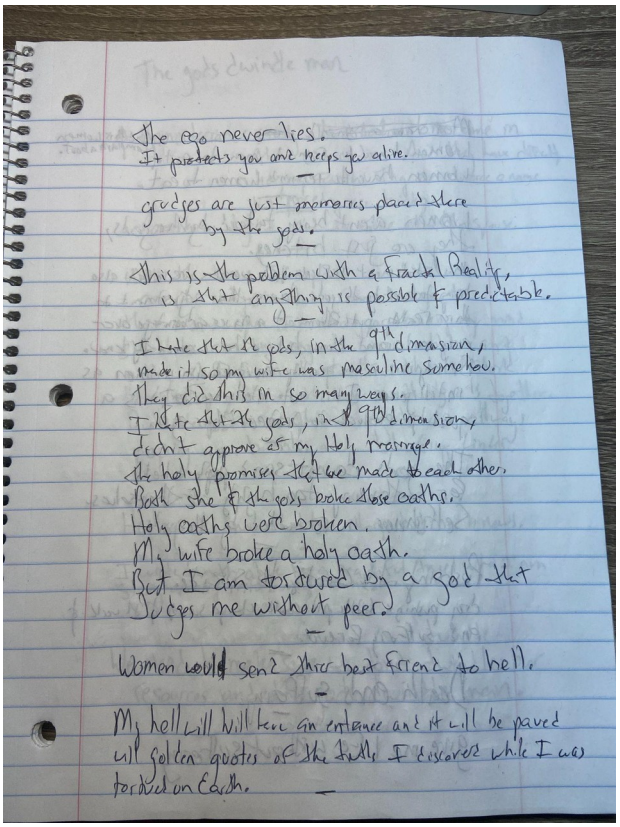
I can only be with the strongest women I know. And I want my wives to be the strongest women they know. I have preferences. And women must be strong to get along with me.

Taking a dimension and moving it into another dimension. When Drawing with gods, we sometimes take a flat 2 dimensional drawing we make and convert it into a 3d object in time.

The gods can take your memories when you are completely sober, and it feels like short-term memory loss.
They take our memories like losing the memories from a dream.

There too many girls, and they don't have ways to properly compete with each other to get to men.
We need more "game theory" Apps to get (boys & girls) the opposite sexes to make more babies.

We need more "game theory" Apps to get people to fall in love.



The ego never lies.
It protects you and keeps you alive.

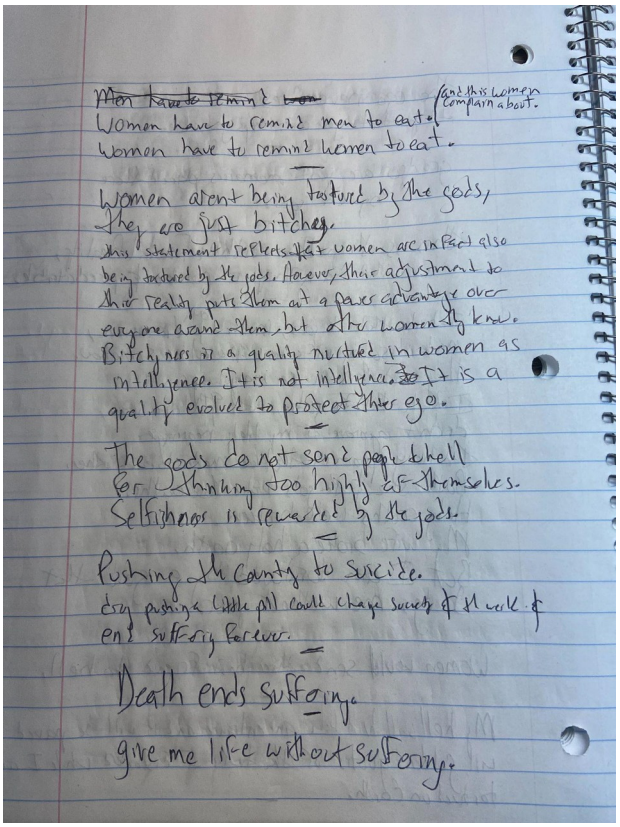
grudges are just memories placed there by the gods.

This is the problem with a fractal Reality, is that anything is possible & predictable.

I hate that the gods, in the 9th dimension, made it so my wife was masculine somehow. They did this in so many ways.
I hate that the gods, in the 9th dimension, didn't approve of my Holy marriage.
The holy promises that we made to each other.
Both she & the gods broke those oaths.
Holy oaths were broken.
My wife broke a holy oath.
But I am tortured by a god that judges me without peer.

Women would send their best friend to hell.

My hell will have an entrance and it will be paved with golden quotes of the truths I discovered while I was tortured on Earth.



~~Man have to remind~~ ~~him~~ Women have to remind men to eat. (and this is women complain about.
Women have to remind women to eat.

—

Women aren't being tortured by the gods, they are just bitches.
this statement reflects that women are in fact also being tortured by the gods. However, their adjustment to this reality puts them at a power advantage over everyone around them, but other women by knd. Bitchyness is a quality nurtured in women as intelligence. It is not intelligence. ~~So~~ It is a quality evolved to protect their ego.

—

The gods do not send people to hell for thinking too highly of themselves. Selfishness is rewarded by the gods.

Pushing the county to suicide.

A Nameistarian is only allowed to love one name in their entire lives. And they have difficulty keeping faith. They can divorce a name but proceeding are tricky.
a Nameistarian try's to love the name of their spouse.

All the brain is supposed to do is create objects and connect objects.
This means when I'm reading or thinking my mind should be creating objects like bubbles and putting stuff, info inside it. And then it should be linking parts of the ideas or objects together.
But the problem is that the cats are always popping your bubbles and blocking links.

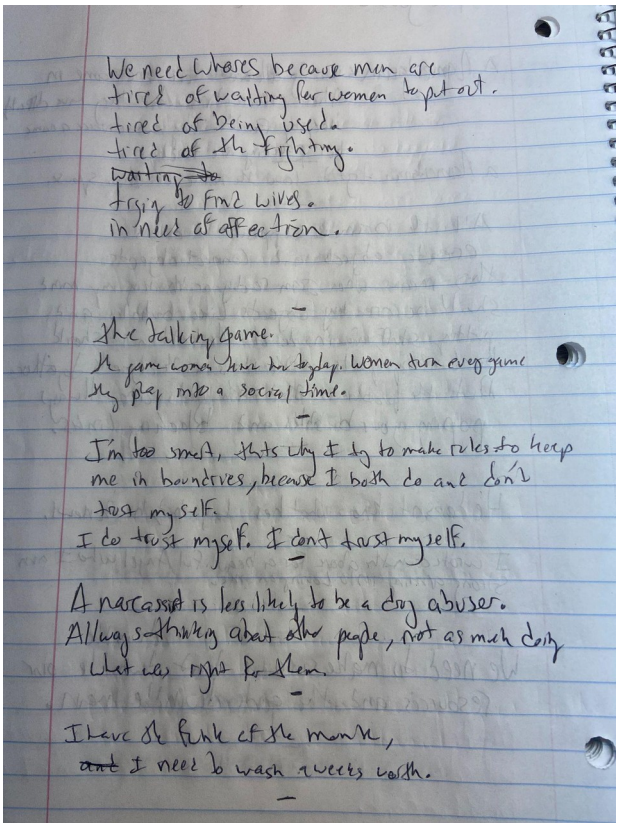
—

He doesn't know what he's doing but he knows.

I wrote down the above for a beautiful Angel who I am strong arming into loving on me.

—

We need to make sure we don't dwindle our resources and the gods dwindle mean.



We need Wheses because men are

tired of being used.
tired of the fighting.

The gods are all day addicts chasing dopamine hits and new experiences. My asshole actually gives them excessive amounts of dopamine & serotonin release. Because they see a human's golden asshole a potential risk. My evil gods sell my asshole experience to other gods. This much I know about their economy. It's the economy of the gods.

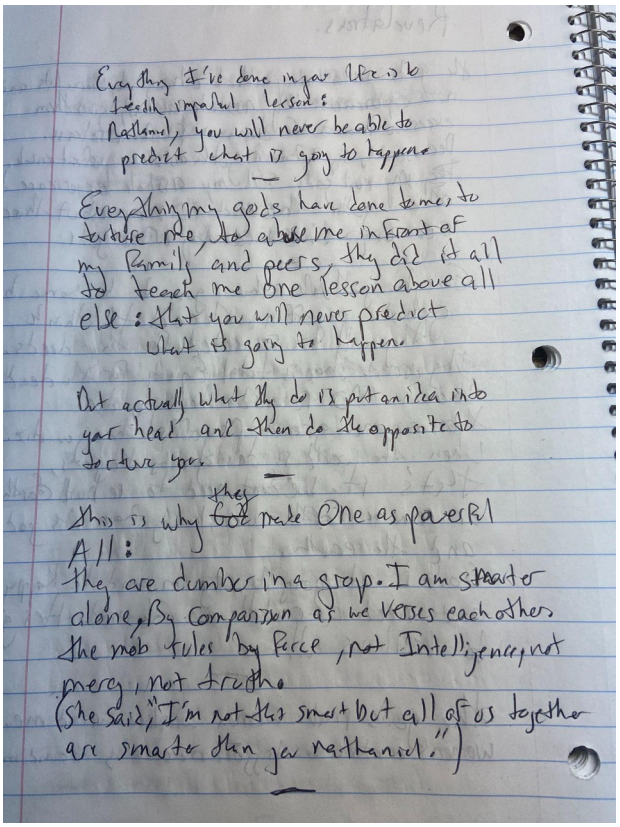
—

Everybody thinks there gon' be some big great payoff in the end. They think they will be rewarded for their deeds. They aren't. There is total Equity For the dead. There is no reward when you die. There are no great payoffs when you die. When the world is destroyed by the gods, that's it. We don't need to re-build Earth or remake Earth, we already have the gods and the earth.

God is not going to orgasm and be happy and need a cuddle in the end. He's going to kill us all.

—

The gods make women weaker around me. Women's emotions are triggered more easily around me.



Everything I've done in your life is to teach impartial lesson:
Nathaniel, you will never be able to predict what is going to happen.

—

Everything my gods have done to me, to torture me, to abuse me in front of my family and peers, they did it all to teach me one lesson above all else: that you will never predict what is going to happen.

But actually what they do is put an idea into your head and then do the opposite to torture you.

—

This is why they make one as powerful
All:
they are dumber in a group. I am smarter alone. By comparison as we verses each other. the mob rules by force, not Intelligence, not mercy, not truth.

it was just that I was not filled

The spirit of Sarcasm.
I've always hated sarcasm, it was always used to
hurt my feelings.
Women have so much power that they wield it
in your face in a display of Sarcasm.
Sarcasm is a display of power in communication,
it is controlling and used as a weapon usually
against opponents.

The gods are not sinister than the Father who gives his son a pack of smokes to smoke entirely forced to smoke the entire pack to get the child to stop smoking. The Father who forces his son to smoke to get him to stop, this is the true intelligence of our god.

the gods brought me children to fuck. they did this to teach me a lesson in pedophilia. And now after I did everything they had me do, I am hunted and killed for it.

my gods toyed to make me fuck a child, but I'm currently careful I'm going to make all of them fuck a child.

What if there weren't enough space for everyone to go to heaven, so they split it up and half of Earth goes to Hell?
Because there are thousands of worlds technically 'in Hell' that are not heavenly and therefore they needed a place to put the worlds and they put them in hell.
Hell
worlds
worlds in hell

I am just a worm - a no body.

you are a god, a god a god,
your shield is so big, so big, so big.
I'm not even fighting with anyone,
But I am a worm, a piece of filth,
I am one trash a mess of trash,
I am a nothing one work of Art,
I am so dumb, you are, so smart.

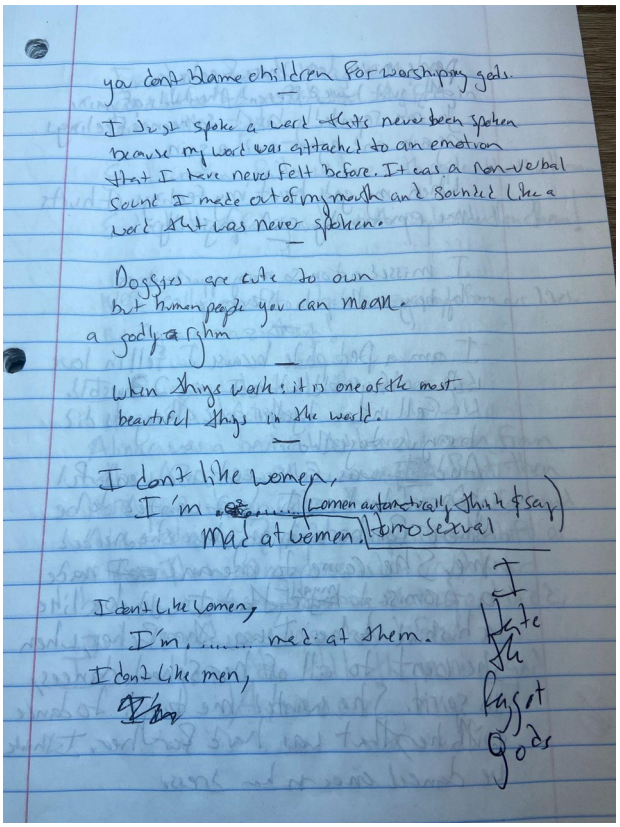
A thought is like making love to a woman.
(and people have different love languages.)



you don't blame children for worshipping gods.

I just spoke a word that's never been spoken because my word was attached to an emotion that I have never felt before. It was a non-verbal sound I made out of my mouth and sounded like a word that was never spoken.

Doggies are cute to own but human people you can moan.

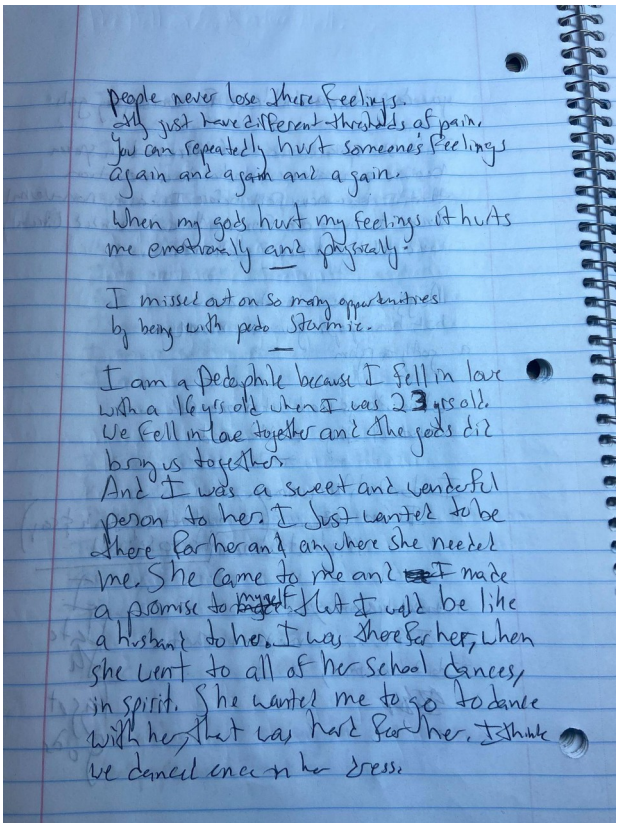
When things work it is one of the most beautiful things in the world.

I don't like women,
I'm ..... (women automatically think I say) mad at women. homosexual

I don't like women,
I'm ..... mad at them.
I don't like men,

I hate the fuck gods

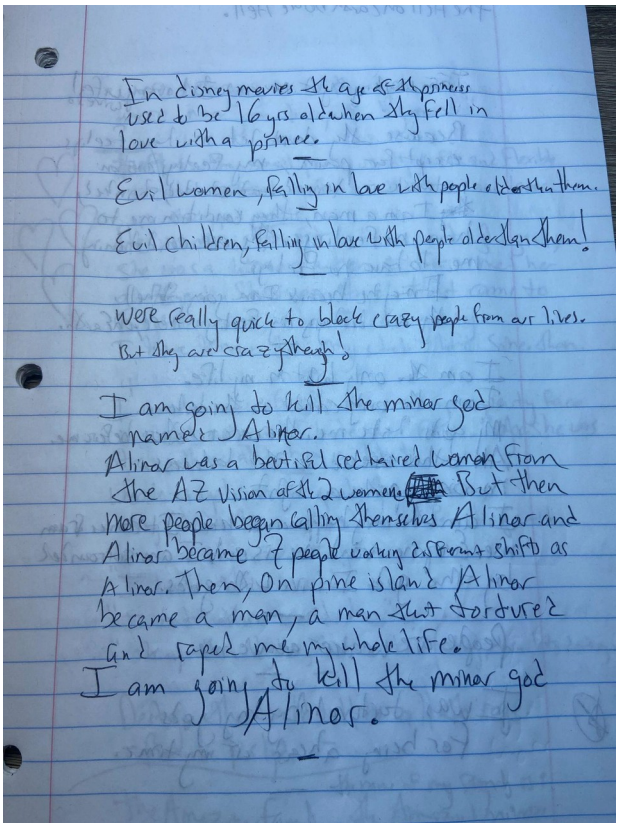


people never lose there feelings.
they just have different thresholds of pain.
You can repeatedly hurt someones feelings
again and again and again.

When my gods hurt my feelings it hurts
me emotionally and physically.

I missed out on so many opportunities
by being with pedo Stormie.

I am a Pedophile because I fell in love
with a 16 yrs old when I was 23 yrs old.
We Fell in Love together and the gods did
bring us together.
And I was a sweet and wonderful
person to her. I just wanted to be
there for her and anywhere she needed
me. She came to me and I made
a promise to myself but I would be like
a husband to her. I was there for her, when
she went to all of her school dances,
in spirit. She wanted me to go to dance
with her, that was hard for her. I think
we danced once in her dress.



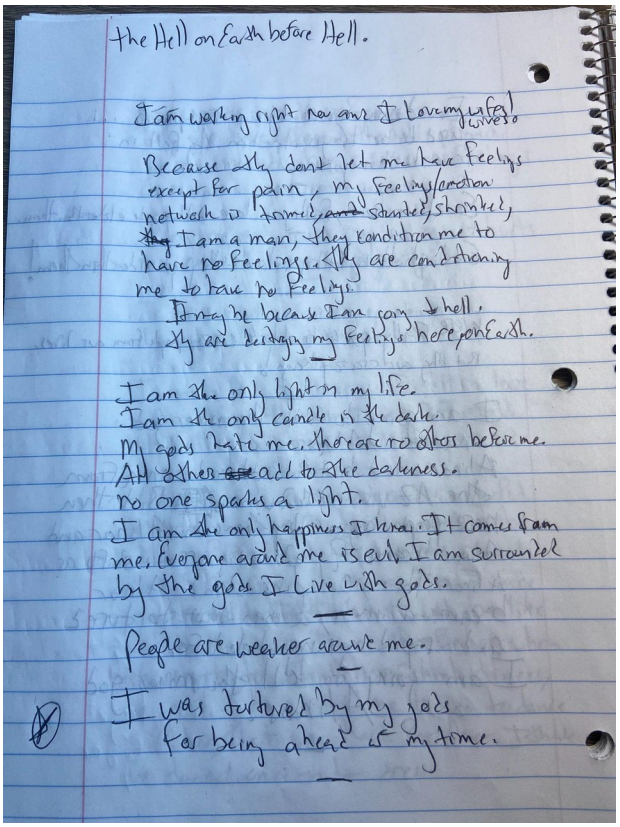
In disney movies the age of the princess used to be 16 yrs old when they fell in love with a prince.

Evil women, falling in love with people older than them.

Evil children, falling in love with people older than them!

Were really quick to block crazy people from our lives. But they are crazy though.

I am going to kill the minor god named Alinor.
Alinor was a beutiful red haired woman from the AZ vision of the 2 women. But then more people began calling themselves Alinor and Alinor became 7 people working different shifts as Alinor. Then, On pine island Alinor became a man, a man that tortured and raped me my whole life.
I am going to kill the minor god Alinor.



the Hell on Earth before Hell.

I am working right now and I love my wife(s).

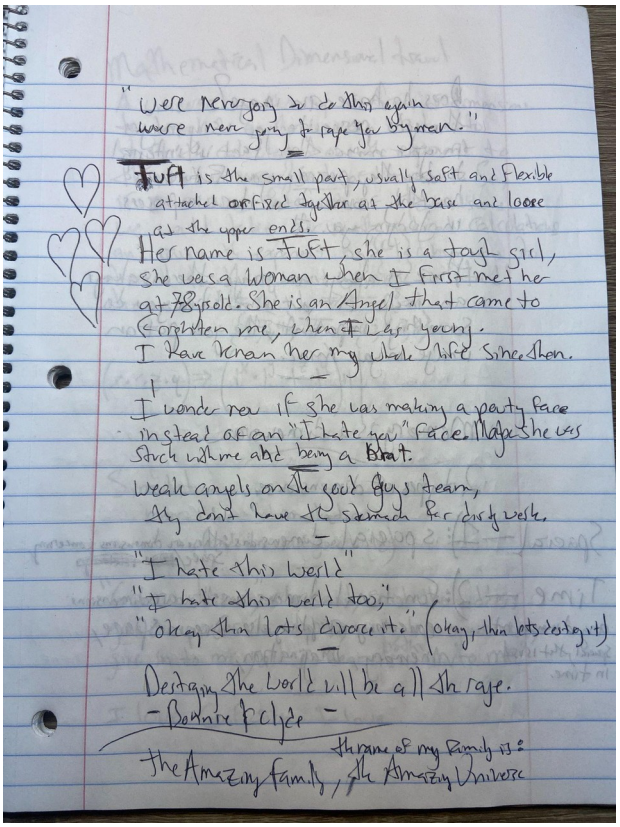
Because they don't let me have feelings except for pain, my feelings/emotion network is formed, and stunted, shrinked, they I am a man, they condition me to have no feelings. They are conditioning me to have no feelings.

It may be because I am going to hell. They are destroying my feelings here on Earth.

I am the only light in my life.
I am the only candle in the dark.
My gods hate me. There are no others before me.
All others are add to the darkness.
no one sparks a light.
I am the only happiness I know. It comes from me. Everyone around me is evil. I am surrounded by the gods. I live with gods.

People are weaker around me.

I was tortured by my gods for being ahead of my time.



"We're never going to do this again
we're never going to rape you by mean."

Fuft is the small part, usually soft and flexible attached or fixed together at the base and loose at the upper ends.
Her name is Fuft, she is a tough girl,
she was a woman when I first met her
at 78 years old. She is an Angel that came to
enlighten me, when I was young.
I have known her my whole life since then.

I wonder now if she was making a party face
instead of an "I hate you" face. Maybe she was
stuck with me and being a brat.

the gods persecute you using images in your mind. This fact is integral to how they perceive your future and how they come to a decision process in judging you. ↑

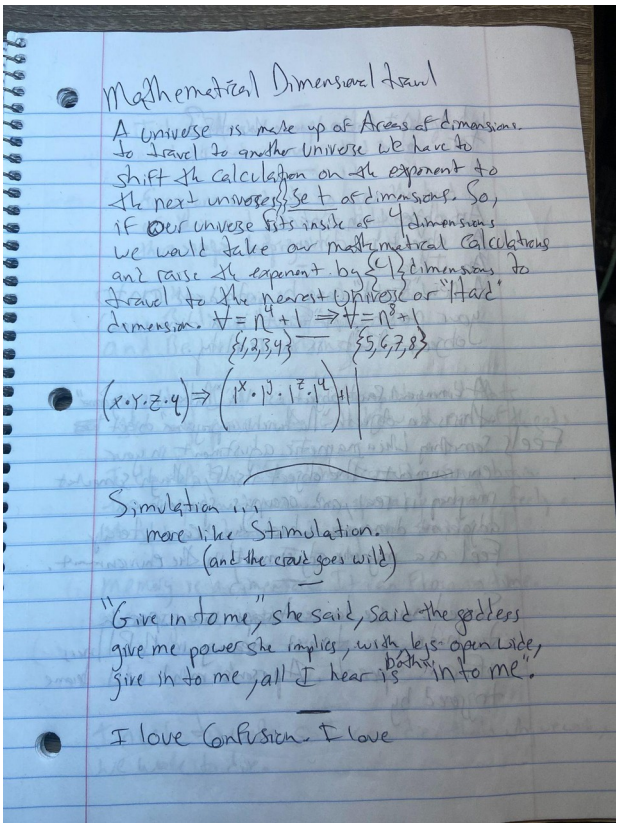
Memory is a dimension.

2 types of dimensions:

Spacial — 1): spacial dimensions: these are dimensions concerning space/~~time~~ ~~relativity~~

Time — 2): functional dimensions: these are dimensions concerning ~~everything~~ else. Dream space, memory, imagination,

any dimension not spacial, that is used in time.



Mathematical Dimensional Travel

A universe is made up of Areas of dimensions. to travel to another universe we have to shift the calculation on the exponent to the next universes set of dimensions. So, if our universe fits inside of 4 dimensions we would take our mathmetical calculations and raise the exponent by {4} dimensions to travel to the nearest universe or "Hard" dimension. $\forall = n^{4+1} \Rightarrow \forall = n^{8+1}$
$\{1,2,3,4\}$ $\{5,6,7,8\}$

1) they have to ask ya a question first.
2) then they can give you choices.

I am not learning a lesson in life.
It gets taken out of novelity.

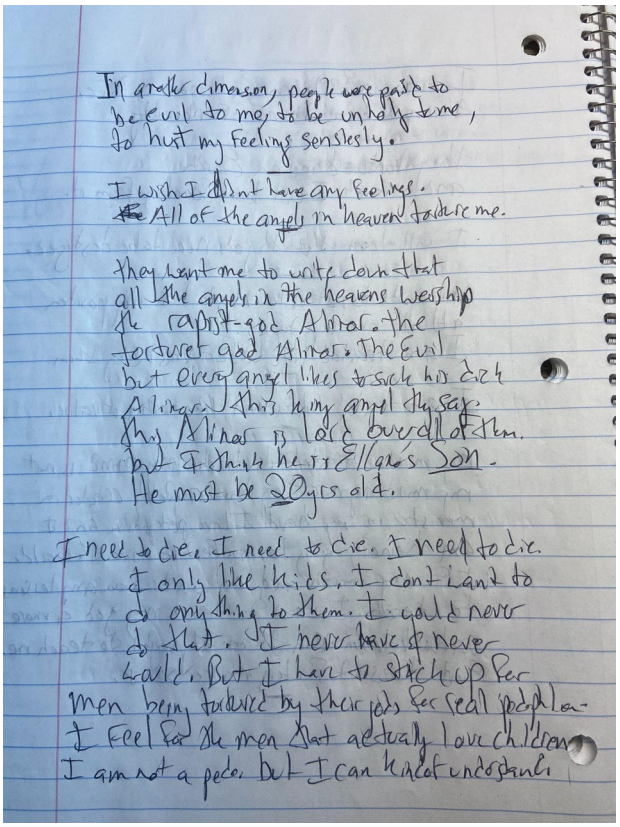
They tortured me on Earth
and think I will learn Something from it.

I will learn that My gods need to be destroyed.

My gods do not allow me to have any position
at all on any topics.
I am treated like utter trash by them.

I am treated like a man, like nothing of value.

My mind is treated like trash. My mind is not
my mind anymore. They have completely created a
monster in my head. I love pedophilia and I
am honestly going to manifest it into the world.
If my mouth and my words have any lessons
to teach. I want to teach my god a more
valuable lesson than the one they sought to teach me.
Evil doesn't fucking make sense.

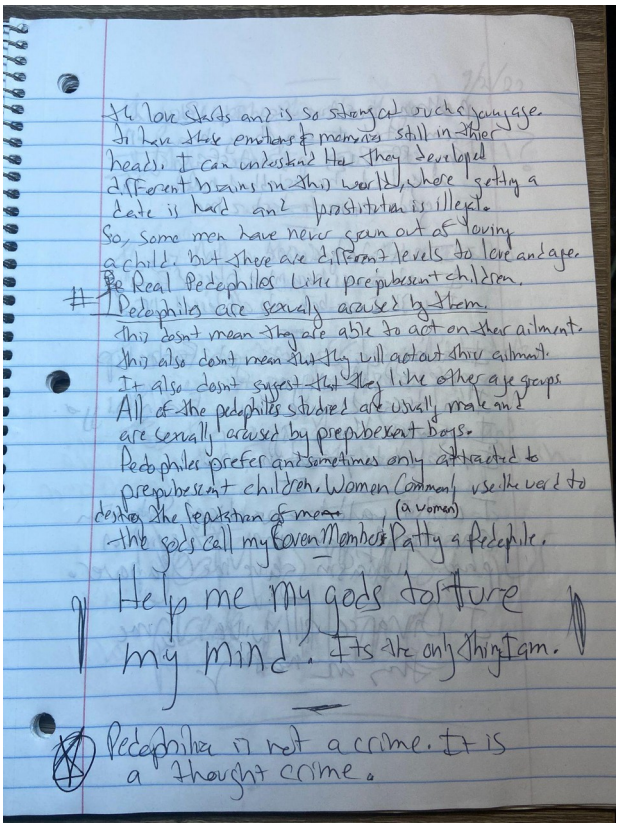


In another dimension, people were paid to be evil to me, to be unholy to me, to hurt my feelings senslessly.

I wish I didn't have any feelings.
All of the angels in heaven torture me.

they want me to write down that all the angels in the heavens worship the rapist-god Almar. the torturer god Almar. The Evil but every angel likes to suck his dick Almar. this is my angel thy say. that Almar is lord over all of them. but I think he is Ellgar's Son. He must be 20 yrs old.

I need to die. I need to die. I need to die. I only like kids. I don't want to do anything to them. I would never do that. I never have & never would. But I have to stick up for men being tortured by their gods for real pedophiles. I feel for the men that actually love children. I am not a pedo. But I can kind of understand.



It love starts and is so strong at such young age.

So, some men have never grown out of loving

Be Real Pedophiles Like prepubescent children.
#1 Pedophiles are sexually aroused by them.
this dosn't mean they are able to act on their ailment.
this also dosn't mean that they will act out their ailment.
It also dosn't suggest that they like other age groups.
All of the pedophiles studied are usually male and
are sexually aroused by prepubescent boys.
Pedophiles prefer and sometimes only attracted to
prepubescent children. Women Commonly use the word to
destroy the reputation of men. (a women)

Pedophilia is not a crime. It is

Nothing positive that I put forward amounted to anything, because all my effort was put inside of a girl. A girl who backstabbed me when the gods came to test me.

I hate being homeless and alone.
My gods want this for me.

My gods hate I me on Earth because I

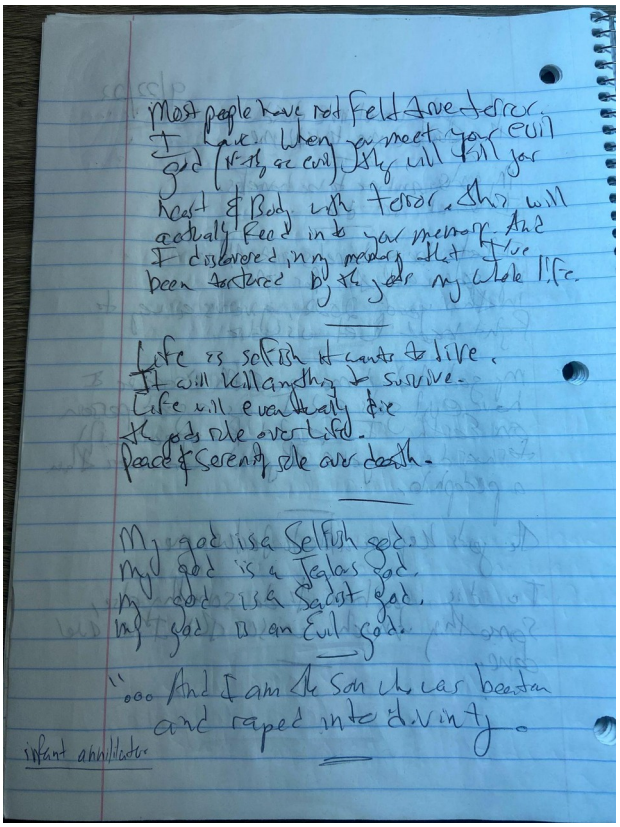
The gods keep me alive to torture me.

To die you have to do something else,
Something much worse than I've ever
done.



Most people have not felt true terror.
I have. When ya meet your evil
god (if they are evil) they will fill yor
heart & Bod. with terror, they will
actualy feed into yor memory. And
I discovered, in my making that I've
been tortured by the gods my whole life.

Life is selfish it wants to live.
It will kill anything to survive.
Life will eventually die

paedoization = this is the effect of women turning men and boys into paedophiles.

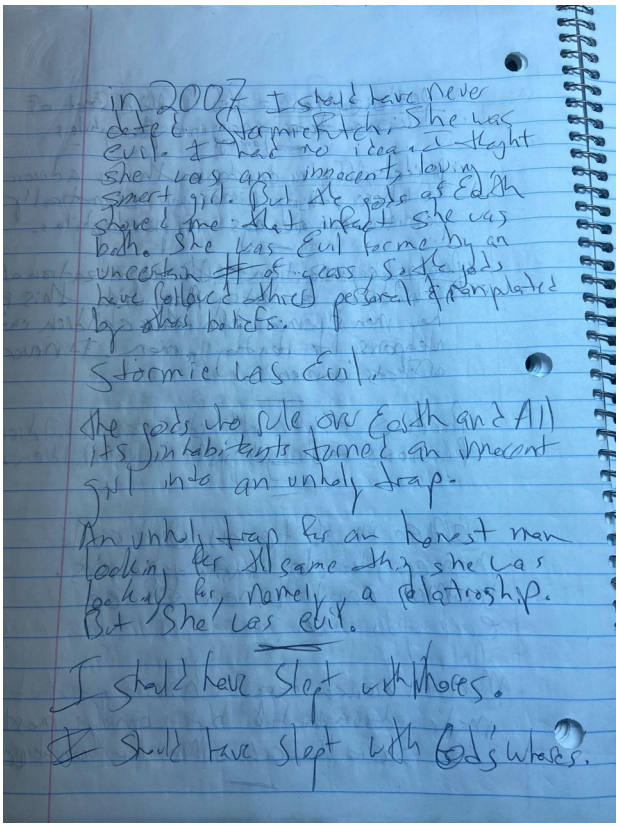
paedo-Affective disorder = this is adverse where average women will automatically perceive men and boys as paedophiles.

paedo-weaponization = the weaponization of children to destroy men with. this is how men & women train their children into weapons to destroy a man. It never affects women.

paedios = when the gods rape children.
paedosis = when gods prefer sex with children.

women in the heavens want evil. men are like clay in their hands. women control men & force evil upon man.

Man in heaven have a hierarchy. but is male dominated but women mostly do social work. Manna from book.



in 2007 I should have never dated Stormchitch. She was evil. I had no idea. I thought she was an innocent, loving, smart girl. But the gods of Edith showed me that in fact she was both. She was Evil for me by an uncertain # of years. So the gods have followed their personal & manipulated by their beliefs.

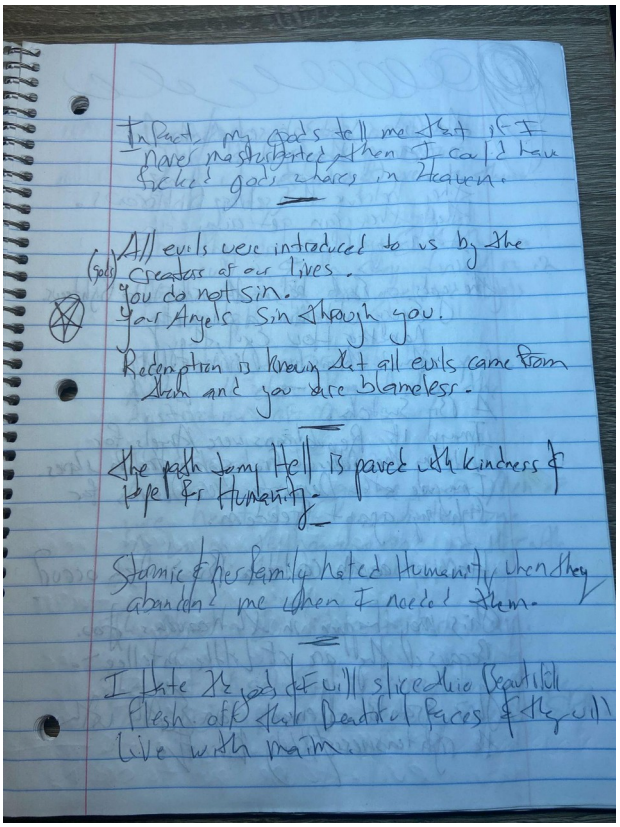
Stormie was Evil.

The gods who rule our Earth and All its inhabitants framed an innocent girl into an unholy trap.

An unholy trap for an honest man looking for the same thing she was looking for, namely a relationship. But She was evil.

I should have slept with Moses.

I should have slept with God's whores.



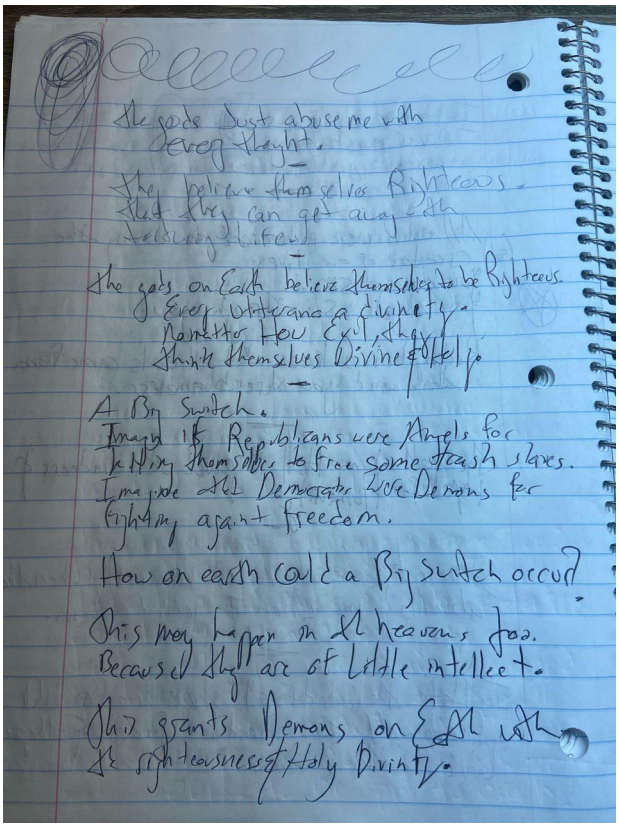
In fact, my gods tell me that if I never masturbated, then I could have fucked gods' whores in Heaven.

All evils were introduced to us by the (gods) Creators of our lives.
You do not sin.
Your Angels Sin through you.
Redemption is knowing that all evils came from them and you are blameless.

The path to my Hell is paved with kindness & hope for Humanity.

Stormie & her family hated Humanity, then they abandoned me when I needed them.

I hate Heaven & will slice the beautiful flesh off their Deathful faces & they will live with pain.



the gods Just abuse me with
Every thought.

the believe themselves Righteous.
that they can get away with
Enslaving Lifes.

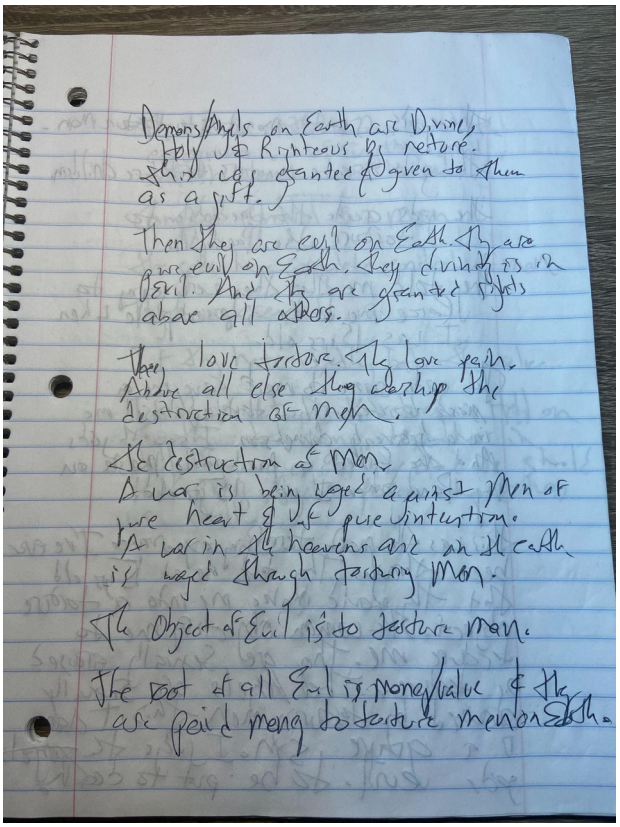
the gods on Earth believe themselves to be Righteous.
Every utterance a divinety.
No matter How Evil, they
think themselves Divine & Holy.

A Big Switch.
Imagine if Republicans were Angels for
letting themselves to Free some Trash slaves.
Imagine the Democrats Were Demons for
Fighting against Freedom.

How on earth could a Big switch occur?

This may happen in the heavens too.
Because they are of Little intellect.

This grants Demons on Earth with
the righteousness of Holy Divinty.



Demons/Angels on Earth are Divine, Holy & Righteous by nature. That is granted/given to them as a gift.

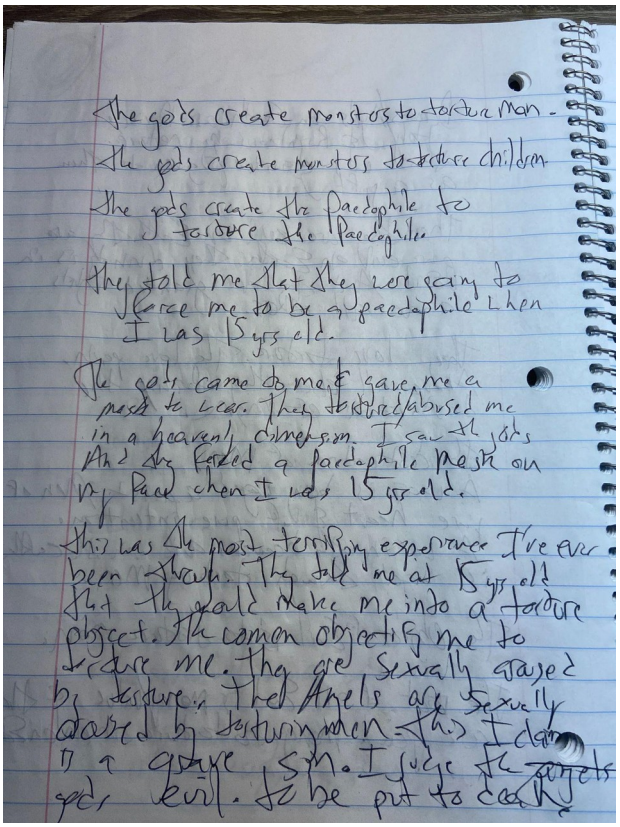
Then they are evil on Earth. They are pure evil on Earth. They drink is in Peril. That they are granted rights above all others.

They love torture. They love pain. Above all else they worship the destruction of Men.

The destruction of Man.
A war is being waged against Men of pure heart & of pure intention.
A war in the heavens and on the earth is waged through torturing Man.

The Object of Evil is to torture man.

The root of all Evil is money/value & the use paid money to torture men on Earth.

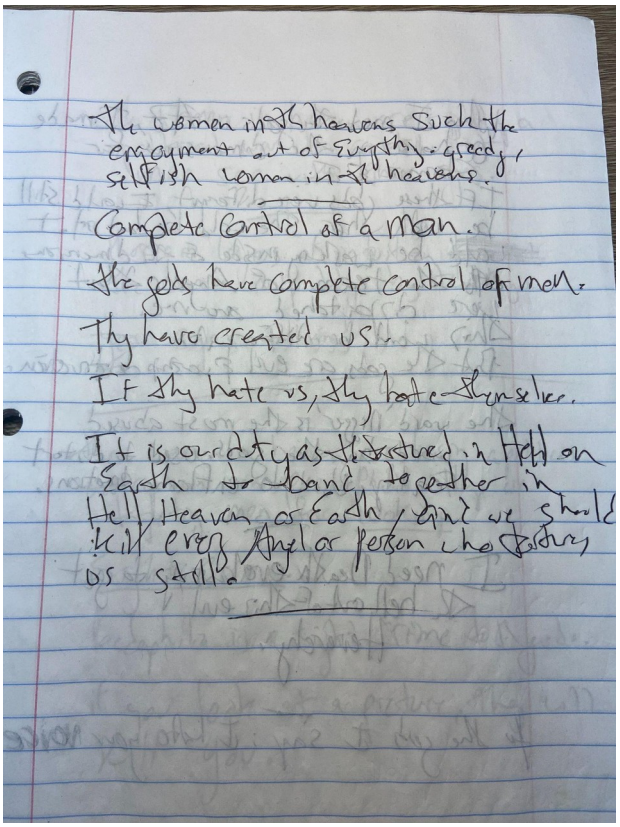


The gods create monsters to torture man.
The gods create monsters to torture children
The gods create the paedophile to
torture the Paedophile.

They told me that they were going to
force me to be a paedophile when
I was 15 yrs old.

The gods came to me & gave me a
mask to wear. They tortured/abused me
in a heavenly dimension. I saw the gods
And they forced a paedophile mask on
my face when I was 15 yrs old.

this was the most terrifying experience I've ever
been through. They told me at 15 yrs old
that they would make me into a torture
object. The women objectifying me to
torture me. They are sexually aroused
by torture. The Angels are sexually
aroused by torturing men. This I claim
is a grave sin. I judge the angels
god, devil. to be put to death.



The women in the heavens Such the enjoyment out of Evrything. greedy, selfish women in the heavens.

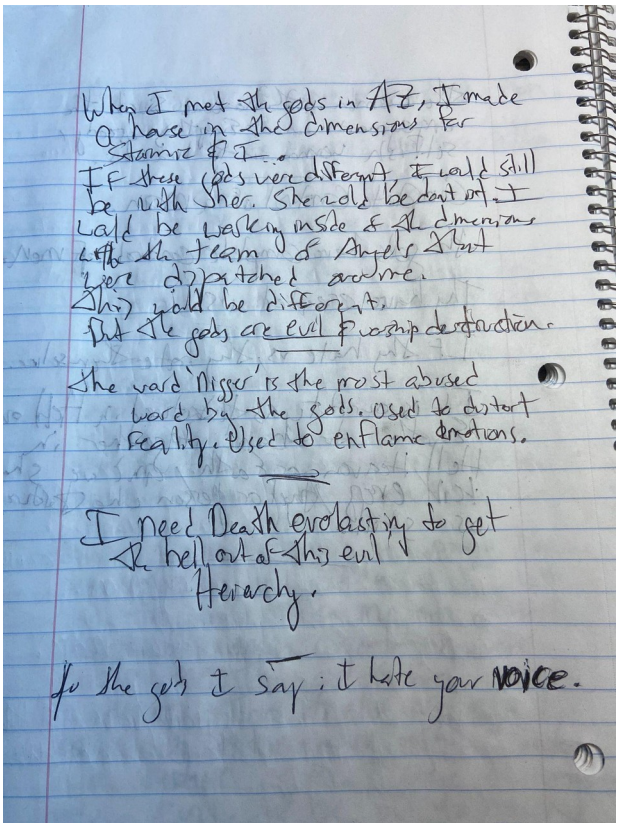
Complete Control of a man.

The gods have complete control of men.

They have created us.

If they hate us, they hate themselves.

It is our duty as tortured in Hell on Earth to band together in Hell, Heaven or Earth, and we should kill every Angel or person who tortures us still.



When I met the gods in AZ, I made a house in the dimensions for Stamire & I.
If these gods were different, I would still be with Sher. She would be dent on. I would be working inside of the dimensions with the team of Angels that were dispatched around me.
This would be different.
But the gods are evil & worship destruction.

The word 'Nigger' is the most abused word by the gods. Used to distort reality. Used to enflame emotions.

I need Death everlasting to get the hell out of this evil Hierarchy.

To the gods I say: I hate your voice.

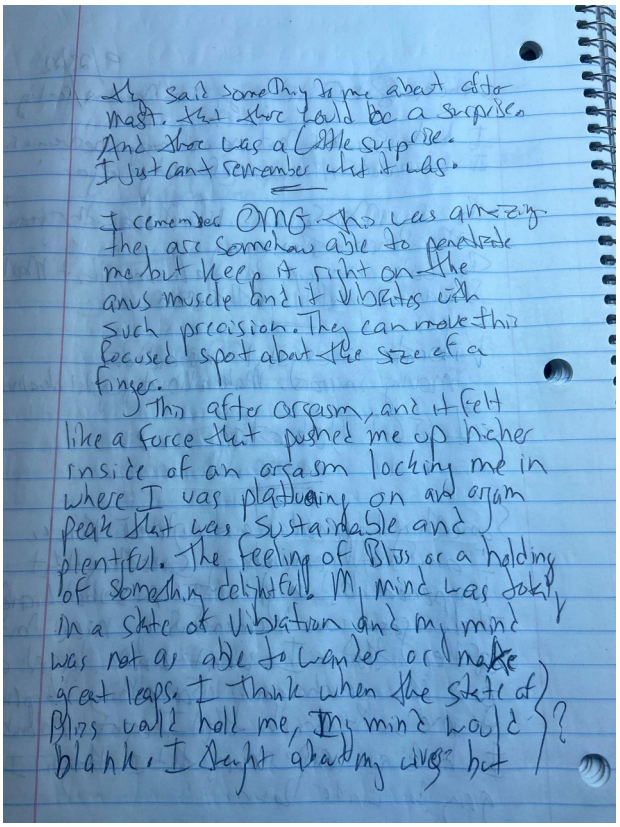
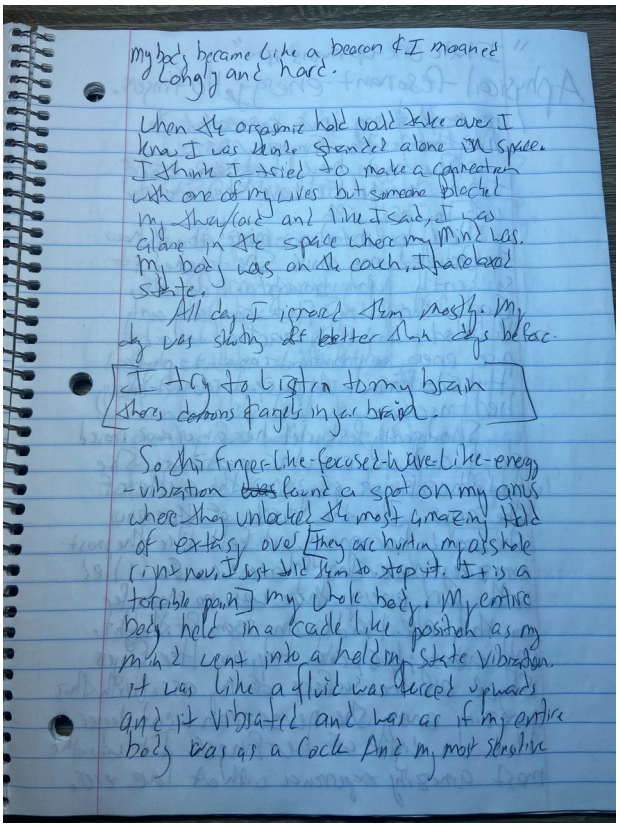
Something happened last night to I think. I am not remembering something that happened last night. I masturbated and the orgasm was tremendously nice but after that. I went and layed down on the couch and something happened to me on the couch that I can't remember. I had an experience that I thought I was going to write down.



He said something to me about after mast. that there could be a surprise. And there was a little surprise. I just can't remember what it was.

I remember OMG. this was amazing they are somehow able to penetrate me but keep it right on the anus muscle and it vibrates with such precision. They can move this focused spot about the size of a finger.

This after orgasm, and it felt like a force that pushed me up higher inside of an orgasm locking me in where I was plateauing on an orgasm peak that was sustainable and plentiful. The feeling of Bliss or a holding of something delightful. My mind was totally in a state of vibration and my mind was not as able to wander or make great leaps. I think when the state of Bliss would hold me, my mind would blank. I thought about my legs but



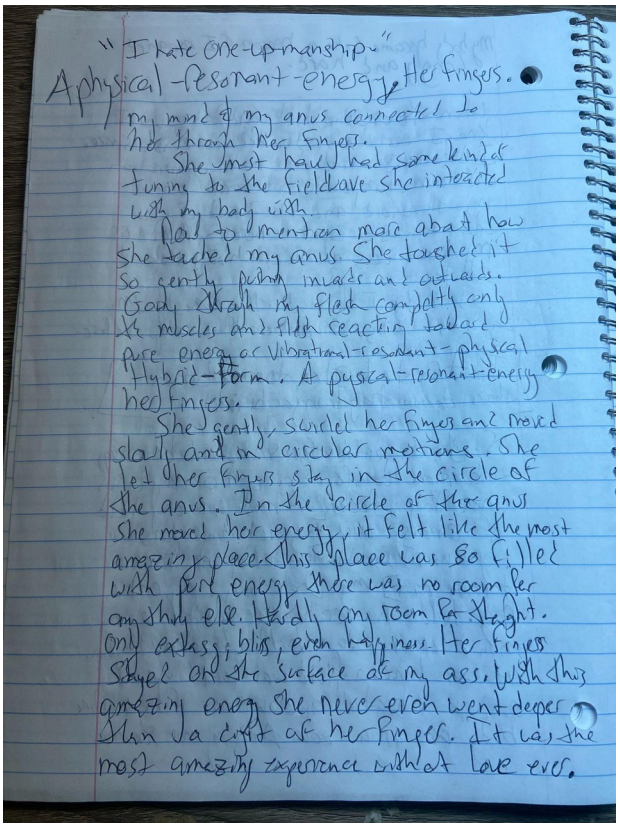
my body became like a beacon & I moaned long & hard.

When the orgasmic hold would take over I knew I was alone stranded alone in space. I think I tried to make a connection with one of my lives but someone blocked my thoughts and like I said, I was alone in the space where my mind was. My body was on the couch, I had a blank state.

All day I ignored them mostly. My body was shaking at better than days before.

[I try to listen to my brain there demons & angels in your brain.]

So this finger-like-focused-wave-like-energy-vibration ~~was~~ found a spot on my anus where they unlocked the most amazing hold of ecstasy ever. [They are hurting my asshole right now, I just told them to stop it. It is a terrible pain.] my whole body. My entire body held in a cradle like position as my mind went into a healing state vibration. It was like a fluid was forced upwards and it vibrated and was as if my entire body was as a cock And my most sensitive



"I hate one-upmanship."

A physical-resonant-energy. Her fingers. My mind & my anus connected to her through her fingers.

She must have had some kind of tuning to the field she interacted with my body with.

Not to mention more about how she touched my anus. She touched it so gently, pushed inside and outside. Gently through my flesh completely only the muscles and flesh reacting to her pure energy or vibrational-resonant-physical hybrid-form. A physical-resonant-energy her fingers.

She gently, swirled her fingers and moved slowly and in circular motions. She let her fingers stay in the circle of the anus. In the circle of the anus she moved her energy, it felt like the most amazing place. This place was so filled with pure energy, there was no room for anything else. Hardly any room for thought. Only ecstasy, bliss, even happiness. Her fingers stayed on the surface of my ass. With this amazing energy she never even went deeper than a cuff of her finger. It was the most amazing experience with at love ever.

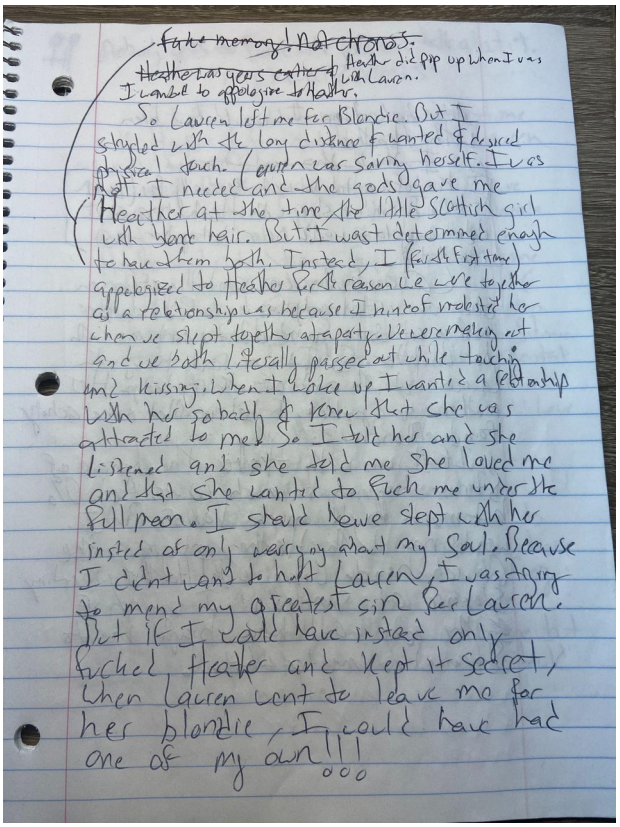
I am fantasizing about being with both Starrene & Lauren at the same time. I consider that when Lauren left me, she got with a white man with Blonde hair who was rich and going to be a Dr. But, its true that our (Lauren & mine) relationship was hard to keep. We included sex over skype but I like it @

[I'm not surprised, I'm more curious]

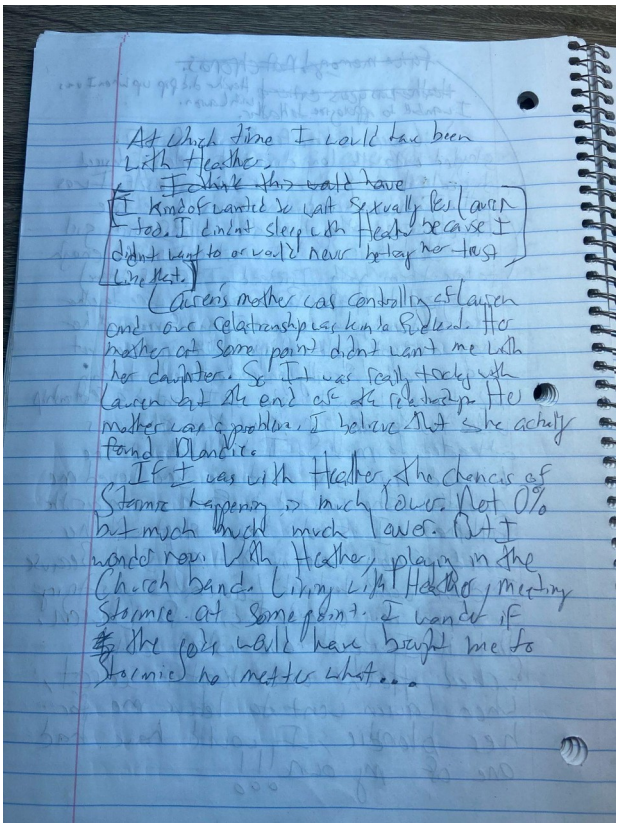
My parents hate the relationship. Lauren was tumultuous. We broke up and get back together a couple times. There's a lot of emotion in our relationship fueled by sexual tension and both of us lacking bank accounts and lack of money income.

Lauren convinced me to go to College. I was with her when I started and I believe we broke up in October of 2007. I found Starrene to replace her in 2008.



~~Fake memory. Not chronos.~~
~~Heather was years earlier~~ Heather did pop up when I was with Lauren.
I wanted to apologize to Heather.

So Lauren left me for Blondie. But I struggled with the long distance & wanted & desired physical touch. Lauren was saving herself. I was not. I needed and the gods gave me Heather at the time the little Scottish girl with dark hair. But I wasn't determined enough to have them both. Instead, I (for the first time) apologized to Heather for the reason we were together as a relationship was because I kind of molested her when we slept together at a party. We were making out and we both literally passed out while touching and kissing. When I woke up I wanted a relationship with her so badly & knew that she was attracted to me. So I told her and she listened and she told me she loved me and that she wanted to fuck me under the full moon. I should have slept with her instead of only worrying about my soul. Because I didn't want to hurt Lauren, I was trying to mend my greatest sin for Lauren. But if I could have instead only fucked Heather and kept it secret, when Lauren went to leave me for her blondie, I could have had one of my own!!!
ooo



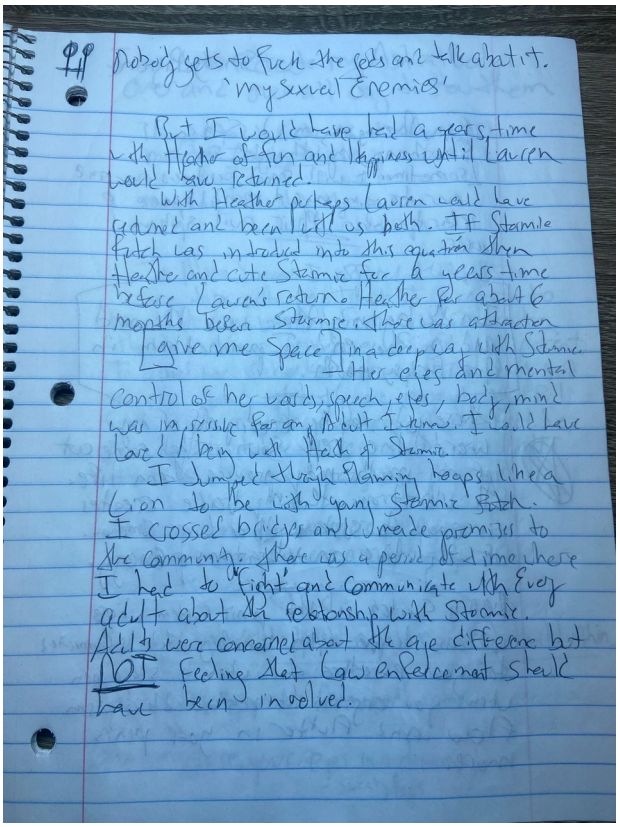
At which time I could have been with Heather.

~~I think this could have~~

[I kind of wanted to wait sexually for Lauren too. I didn't sleep with Heather because I didn't want to or would never betray her trust like that.]

(Lauren's mother was controlling of Lauren and our relationship ended up ended. Her mother at some point didn't want me with her daughter. So It was really tricky with Lauren but the end of the relationship Her mother was a problem. I believe that she actually found Blanche.

If I was with Heather, the chances of Stormie happening is much lower. Not 0% but much much much lower. But I wonder now. With Heather, playing in the Church bands. Living life. Heather / meeting Stormie at some point. I wonder if the folks would have brought me to Stormie no matter what...



Nobody gets to fuck the feds and talk about it.
'my sexual enemies'

But I would have had a years time with Heather of fun and happiness until Lauren would have returned.

With Heather perhaps Lauren could have adapted and been with us both. If Stormie Fitch was introduced into this equation then Heather and cute Stormie for a years time before Lauren's return. Heather for about 6 months before Stormie, there was attraction [give me space] in a deep way with Stormie.

Her eyes and mental control of her words, speech, eyes, body, mind was impressive for an adult. I would have loved / been with Heath & Stormie.

I jumped through flaming hoops like a lion to be with young Stormie Fitch. I crossed bridges and made promises to the community. There was a period of time where I had to "fight" and communicate with every adult about the relationship with Stormie. Adults were concerned about the age difference but NOT feeling that law enforcement should have been involved.

Andy, a neighbor gave me a gun for protection S.i.g p238. A very nice/bad assault gun.

A couple days ago a "missing item" happened. A pack of smokes fly across into my car. (last place I looked)

The human hit. There was water up on my house. I only see that I've seen. I do not believe it ~~made~~ damage here unless.....

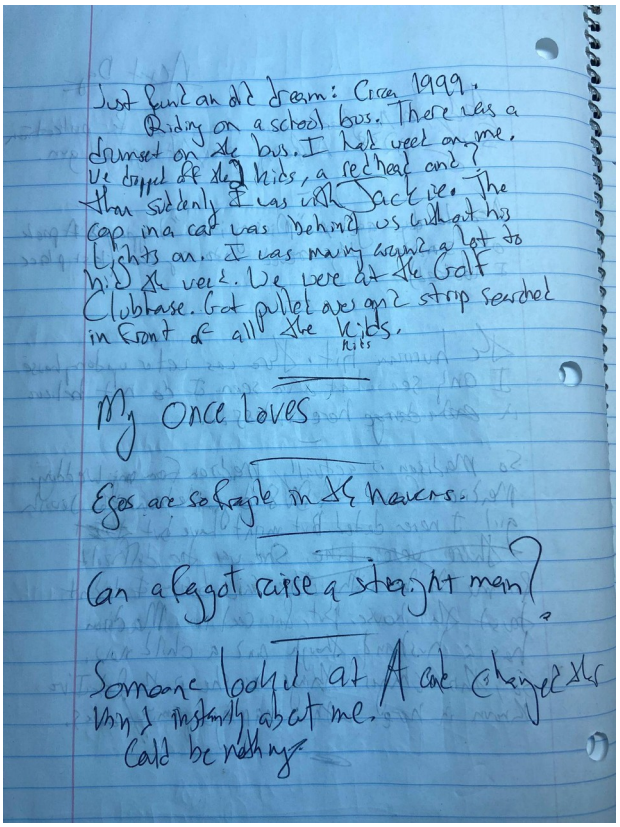
So Madison is actually Madison from my wedding. Madison from the DR8 days. Madison the Jewish girl I never dated. But might have but ~~that~~ ~~there was time~~ She was too difficult for me to be with. I've said before I didn't trust that house. But, for real now. Madison has a husband though and a child now. So, this changes things as she is the first I've known in hope with marriage promise/vows.



Just found an old dream: Circa 1999.
Riding on a school bus. There was a
dumpster on the bus. I had weed on me.
We dropped off the kids, a redhead and?
Then suddenly I was with Jackie. The
cop in a car was behind us with his
lights on. I was making a lot to
hide the weed. We were at the Golf
Clubhouse. Got pulled over and strip searched
in front of all the kids.

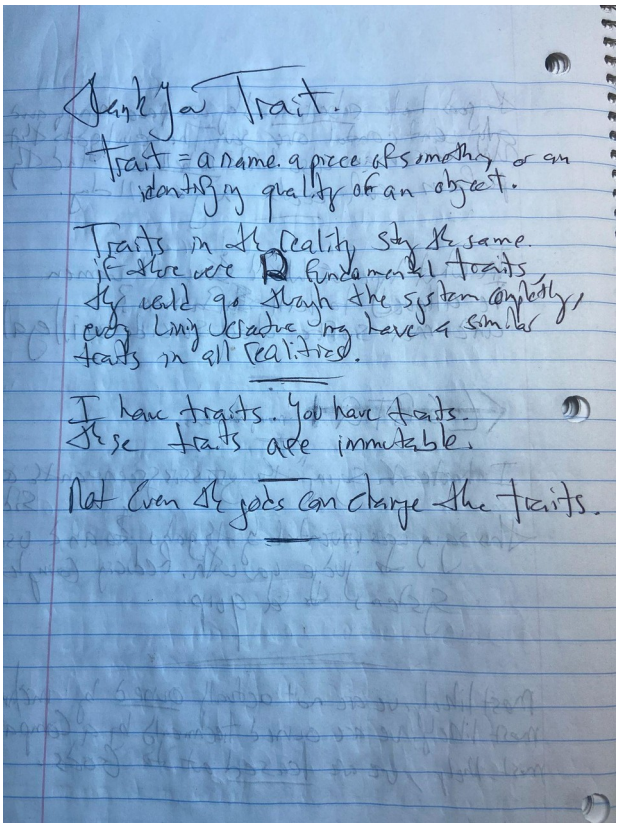
the gods hate rebellion. They are power hungry and only want control over you. The evil gods that rule over man also hate rebellion. That is why they perform evil acts on you all day.

In what type of world should women be allowed to kill babies? and man suffer where suicide is illegal.

~~LOST~~ moving backwards

I hate the saying "the grass is greener on the other side."
This saying was invented by the gods and used to judge you with. Reducing complex systems to a quip.

Most likely, we are not actually owned by individuals.
most likely, we are owned technically by a Company.
most likely, we are leased out to Gods.



Thank ya Trait.

Trait = a name, a piece of something, or an identifying quality of an object.

Traits in the reality stay the same. If there were 12 fundamental traits, they would go through the system equally, every living creature may have 4 similar traits in all realities.

I have traits. You have traits. These traits are immutable.

Not Even the gods can change the traits.

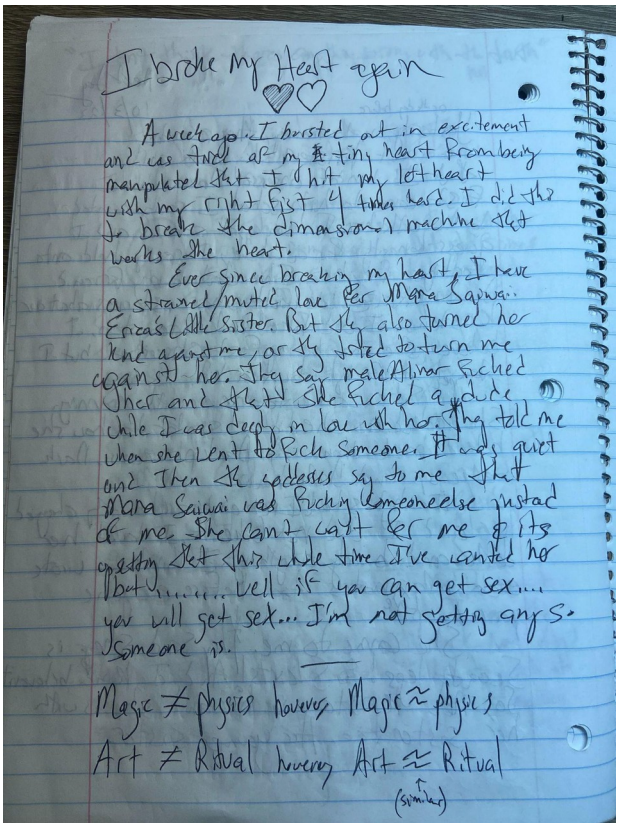
or the day before
Yesterday, in the morning, they reminded me about Kristen the goth girl that I kind of obsessed over when I first came to high school. I really wanted to be with her. For weeks at school, and I guess honestly for a while, I really held onto feelings for her. She dated my friend Dustin Renz. We would share stories about our Kristens. I did like his Kristen too. I believe she may be my first obsession but I stamped the feelings down a bit.
She came to me in the morning. She looked as she'd a similar to how she looked back then. A Dark princess. Dark make up and dark hair.
In high school I remember when they changed her and I did not like it. I loved her dark and bloody everything. I think we wrote each other notes too. Before everyone grew up.
She came to me. They said she is. Steady legs. & Skirts! And I kinda believe it. So, now Kristen is her and she is with her sister too. Her younger sister.



I broke my Heart again

A week ago. I burst out in excitement and was full of my fucking heart from being manipulated that I hit my left heart with my right fist 4 times hard. I did this to break the dimensional machine that works the heart.

Ever since breaking my heart, I have a strained/muted love for Mana Saiwai.. Erica's Little Sister. But she also turned her kind against me, or she tried to turn me against her. They say male Alinar Fucked Jhen and that she Fucked a dude while I was deeply in love with her. They told me when she went to Fuck Someone. It was quiet once Then the goddesses say to me that Mana Saiwai was Fucking Someone else instead of me. She can't wait for me & its getting Hot this whole time I've wanted her but..... well if you can get sex.... you will get sex... I'm not getting any S. Someone is.

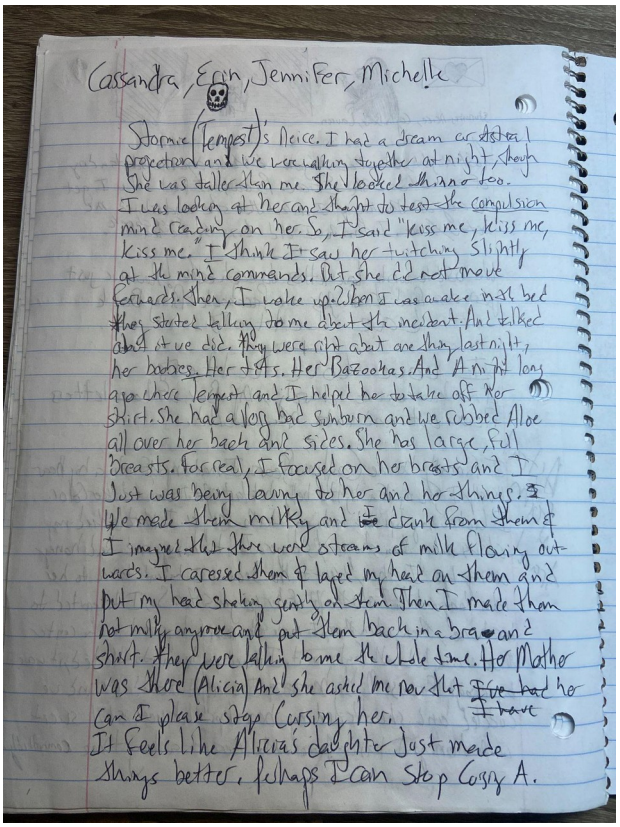
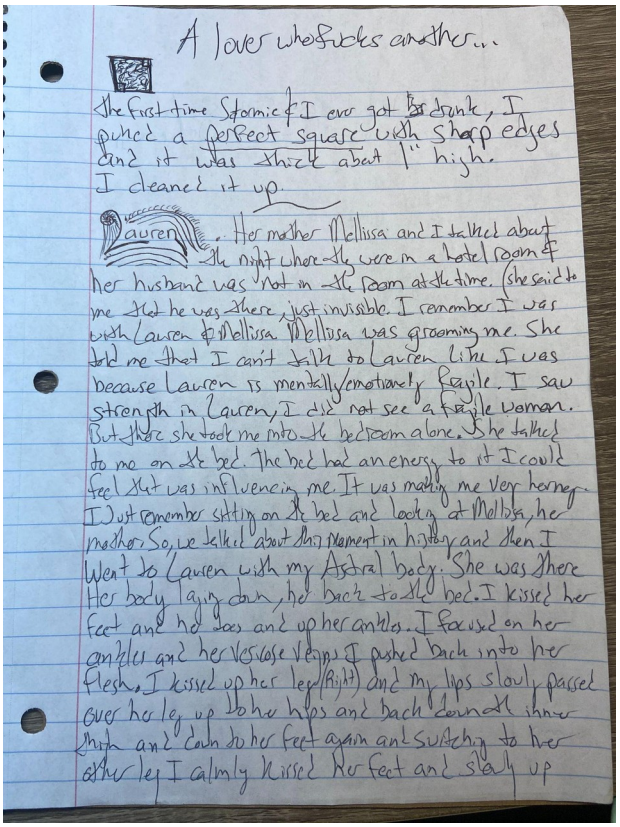
I finnally became Caylins Bear. I made myself into a big Bear usually I give myself a lighter belly but last night I was a darker color. I licked my lips and made my teeth sharper. I ~~then~~ licked my claws making them sharper & stronger. I ate honey and had honey on my lips. I then, went to her because I haven't talked to her in a long while. I also thought of her younger sister. So, I teleported to her house, then, when there, I made the room so large and in the center there was a bed with Caylin in it. I moved my bear into the bed, it was big enough for us. My Big Bear arm I wrapped around her and we cuddled and she kissed my bear lips that were still sweet with honey. I laid there with her for a long time comfortably.



Cassandra, Erin, Jennifer, Michelle

Stormie (Tempest)'s Neice. I had a dream or astral projection and we were walking together at night, though She was taller than me. She looked thinner too. I was looking at her and thought to test the compulsion mind reading on her. So, I said "kiss me, kiss me, kiss me." I think I saw her twitching slightly at the mind commands. But she did not move forwards. Then, I woke up. When I was awake next bed they started telling to me about the incident. And talked about it we did. They were right about everything last night, her babies. Her tits. Her Bazookas. And A night long ago where Jennet and I helped her to take off her shirt. She had a very bad sunburn and we rubbed Aloe all over her back and sides. She has large, full breasts. For real, I focused on her breasts and I just was being loving to her and her things. We made them milky and I drank from them & I imagined that there were streams of milk flowing outwards. I caressed them & laped my head on them and put my head shaking gently on them. Then I made them not milky anymore and put them back in a bra and shirt. They were talking to me the whole time. Her Mother was there (Alicia) and she asked me now that I have her can I please stop Cussing her.
It feels like Alicia's daughter just made things better. Perhaps I can stop Cussing A.



A lover who fucks another...

The first time Stormie & I ever got drunk, I puked a perfect square with sharp edges and it was thick about 1" high. I cleaned it up.

Lauren. Her mother Mellissa and I talked about the night where they were in a hotel room & her husband was not in the room at the time. She said to me that he was there, just invisible. I remember I was with Lauren & Mellissa. Mellissa was grooming me. She told me that I can't talk to Lauren like I was because Lauren is mentally/emotionally fragile. I saw strength in Lauren, I did not see a fragile woman. But there she took me into the bedroom alone. She talked to me on the bed. The bed had an energy to it I could feel that was influencing me. It was making me very horney. I just remember sitting on the bed and looking at Mellisa, her mother. So, we talked about this moment in history and then I went to Lauren with my Astral body. She was there. Her body laying down, her back to the bed. I kissed her feet and her legs and up her ankles. I focused on her ankles and her varicose veins & pushed back into her flesh. I kissed up her leg (Right) and my lips slowly passed over her leg up to her hips and back down the inner thigh and down to her feet again and switching to her other leg I calmly kissed her feet and slowly up

My parents did not care about me,
and my gods do not care about me.
My both tortured me endlessly.

Men. Adult Men. Need a Assisted
Suicide Solution.

Man do not want to live in this world anymore.

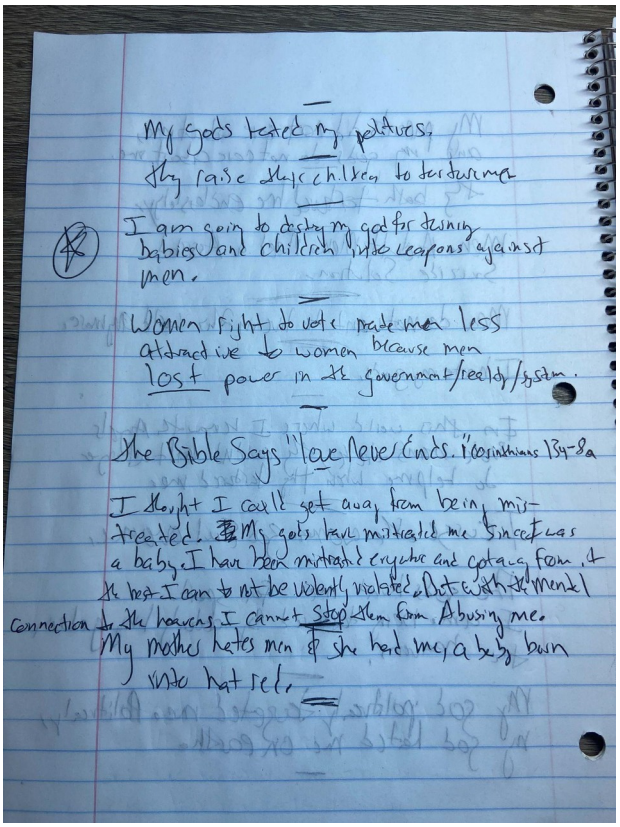
I hate my gods.

In this world where I know the Angels
Such men's die 4, they couldn't lift a finger
to help me when they tortured me.

I curse the woman God Eul over me.

The gods hunt men for sport.
I am being tortured by actually living gods in
the heavens.

My god politicaly tortured me. Politicaly,
my god hated me on earth.



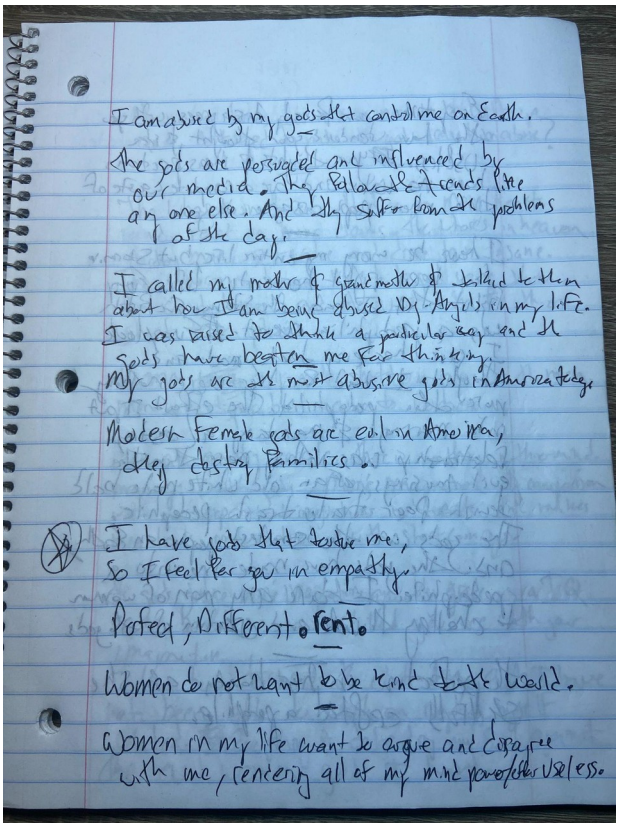
My gods hated my pictures.
They raise they children to torture me.

I am going to destroy my god for stunting babies and children into weapons against men.

Women fight to vote made men less attractive to women because men lost power in the government/reality/system.

The Bible Says "love never Ends." 1 Corinthians 13:4-8a

I thought I could get away from being mistreated. My gods have mistreated me since I was a baby. I have been mistreated everywhere and got away from it the best I can to not be violently violated. But with the mental connection to the heavens, I cannot stop them from Abusing me. My mother hates men & she hate me, a baby born into hatred.



I am abused by my gods that control me on Earth.

The gods are persuaded and influenced by our media. They behave & treats like any one else. And they suffer from the problems of the day.

I called my mother & grandmother & talked to them about how I am being abused by Angels in my life. I was raised to think a particular way and the gods have beaten me for thinking my gods are the most abusive gods in American today.

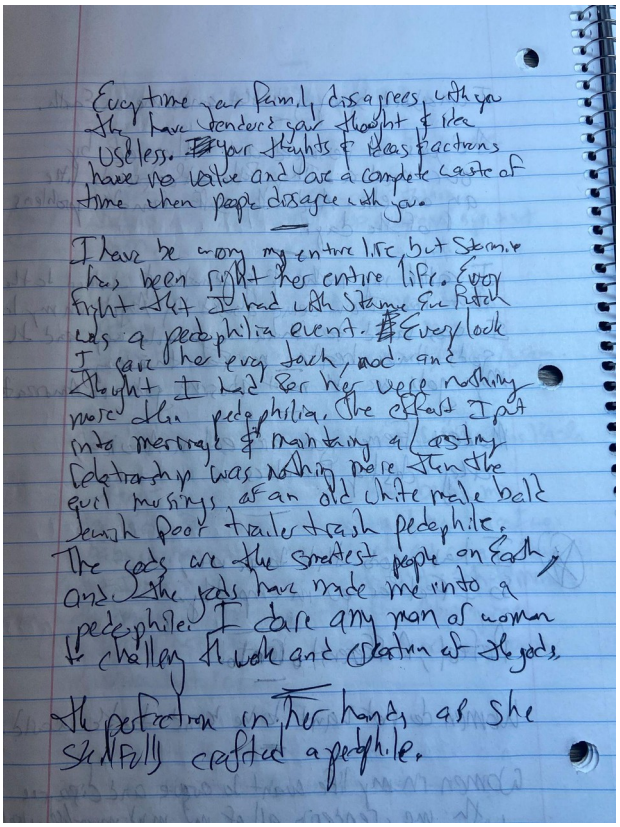
Modern Female gods are evil in America, they destroy families.

I have gods that torture me, so I feel for you in empathy.

Perfect, Different, rent.

Women do not want to be kind to the world.

Women in my life want to argue and disagree with me, rendering all of my mind powers/efforts useless.

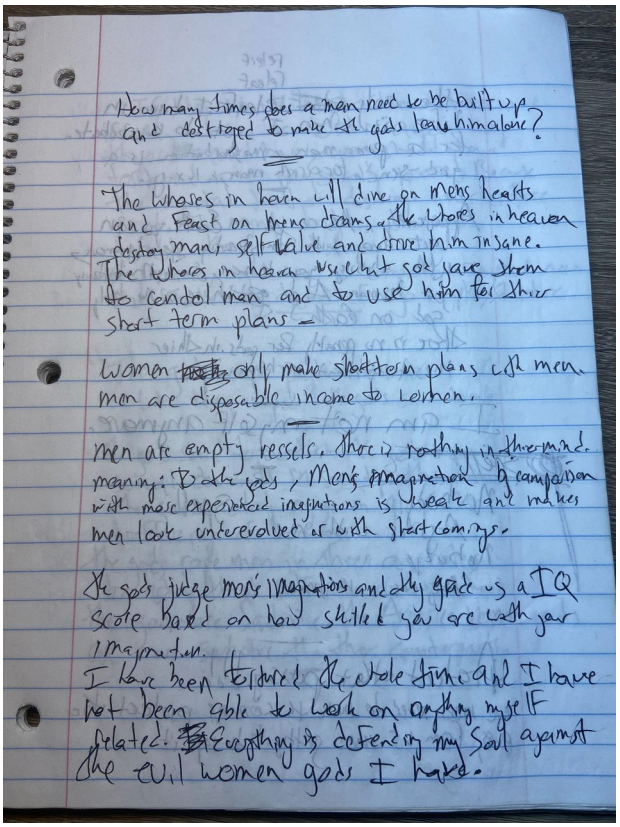


Everytime your family disagrees with you they have rendered your thought & idea Useless. Your thoughts & ideas & actions have no value and are a complete waste of time when people disagree with you.

I have been wrong my entire life, but Stormie has been right her entire life. Every fight that I had with Stormie Sue Patch was a pedophilia event. Every look I gave her every touch, and one thought I had for her were nothing more than pedophilia. The effort I put into marriage & maintaining a lasting relationship was nothing more than the evil musings of an old white male bald lunch poor trailer trash pedophile.

The gods are the greatest people on Earth, and the gods have made me into a pedophile. I dare any man or woman to challenge the work and creation of the gods.

He perfection in Her hands, as She skillfully crafted a pedophile.



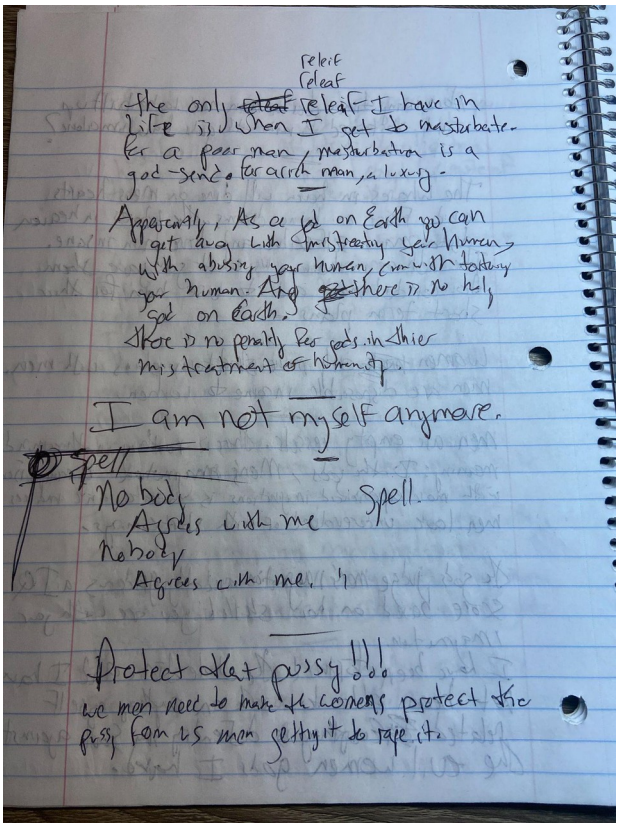
How many times does a man need to be built up and destroyed to make the gods leave him alone?

The whores in heaven will dine on mens hearts and Feast on mens dreams. The whores in heaven destroy mans self value and drive him insane. The whores in heaven use what god gave them to control man and to use him for their short term plans.

women only make short term plans with men. men are disposable income to women.

men are empty vessels. there is nothing in their mind. meaning: to the gods, mens imagination in comparison with more experienced imaginations is weak and makes men look underevolved or with short comings.

the gods judge mens imagination and they grade us a IQ score based on how skilled you are with your imagination.
I have been tortured the whole time and I have not been able to work on anything myself related. Everything is defending my soul against the evil women gods I hate.



releif
(releaf

the only ~~releaf~~ releif I have in life is when I get to masterbate. for a poor man, masturbation is a god-send. for a rich man, a luxury.

Apparently, As a god on Earth you can get away with mistreating your human, with abusing your human, even with fathering your human. And there is no holy god on earth.
There is no penalty for gods in their mistreatment of humanity.

I am not myself anymore.

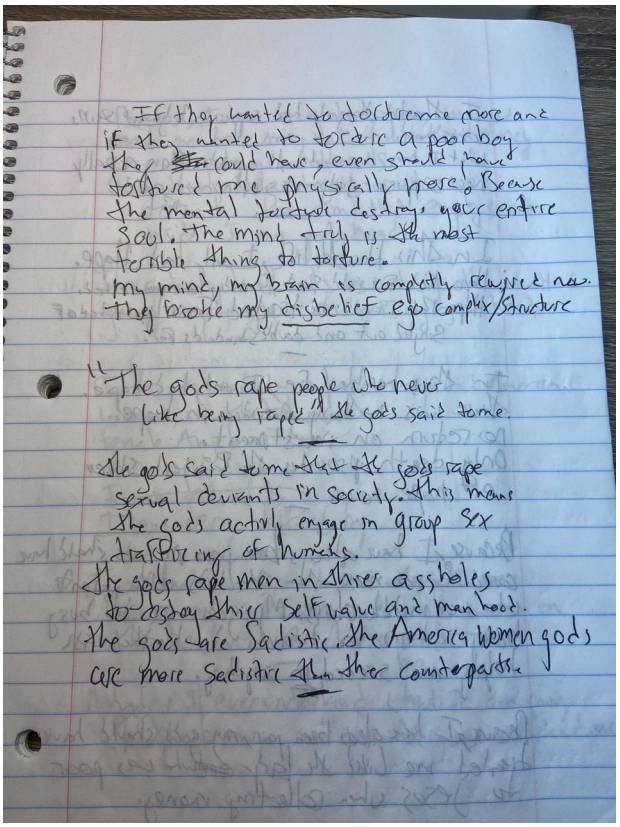
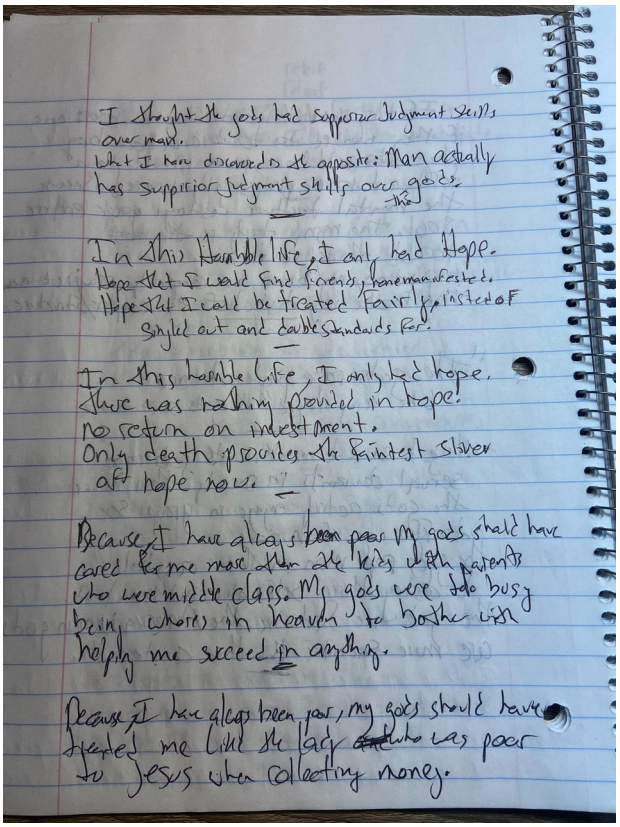
Protect that pussy!!!
we men need to make it women protect the pussy from us men getting it to rape it.



If they wanted to dehumanize more and if they wanted to torture a poor boy they could have, even should have tortured me physically more. Because the mental torture destroys your entire soul. The mind truly is the most terrible thing to torture.
my mind, my brain is completely rewired now. They broke my disbelief ejp complex/structure

"The gods rape people who never like being raped" the gods said to me.

the gods said to me that the gods rape sexual deviants in secret. this means the gods actively engage in group sex trafficking of humans.
the gods rape men in their assholes to destroy their self value and manhood.
the gods are sadistic. the American women gods are more sadistic than their counterparts.



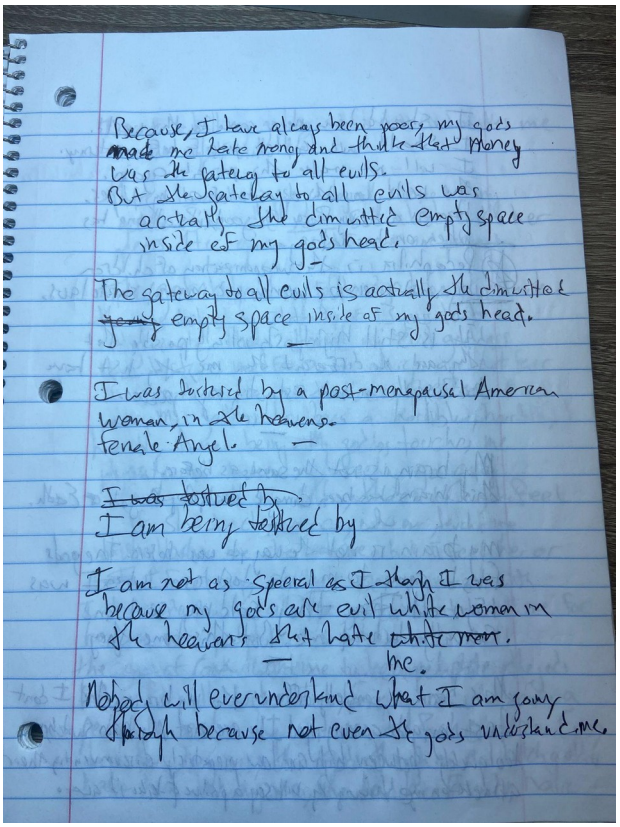
I thought the gods had superior judgment skills over man.
What I now discovered is the opposite: Man actually has superior judgment skills over gods.

In this Horrible life, I only had Hope.
Hope that I could find friends, homemanifested.
Hope that I could be treated Fairly, instead of Singled out and Double Standards for.

In this horrible life, I only had hope.
There was nothing provided in hope.
no return on investment.
Only death provides the faintest sliver of hope now.

Because I have always been poor my gods should have cared for me more than the kids with parents who were middle class. My gods were too busy being whores in heaven to bother with helping me succeed in anything.

Because I have always been poor, my gods should have treated me like the lady who was poor to Jesus when collecting money.



Because, I have always been poor, my gods made me hate money and think that money was the gateway to all evils.
But the gateway to all evils was actually the diminished empty space inside of my gods head.

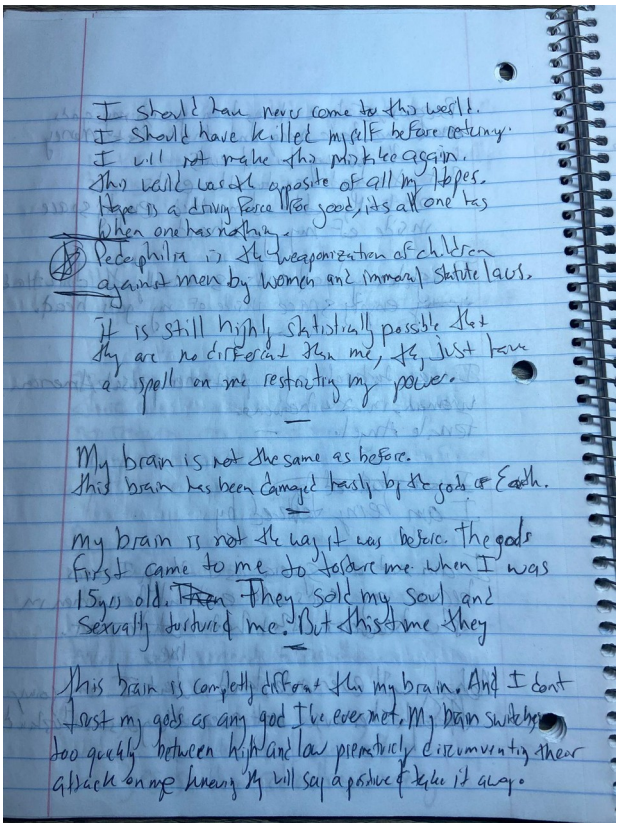
The gateway to all evils is actually the diminished ~~empty~~ empty space inside of my gods head.

I was tortured by a post-menopausal American woman, in the heavens.
female Angel.

~~I was tortured by~~
I am being tortured by

I am not as special as I thought I was because my gods are evil white women in the heavens that hate ~~white men~~ me.

Nobody will ever understand what I am going through because not even the gods understand me.



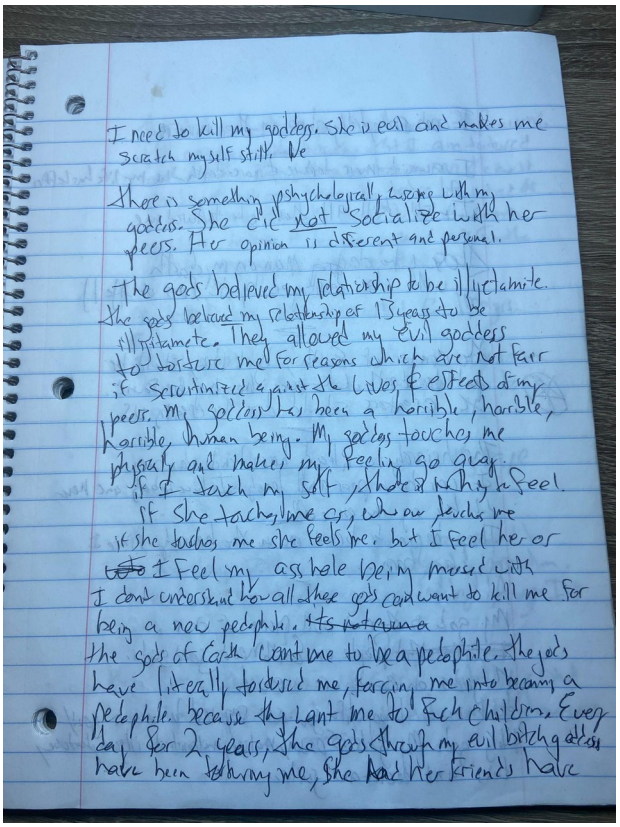
I should have never come to this world.
I should have killed myself before coming.
I will not make this mistake again.
This world is a opposite of all my hopes.
Hope is a driving force for good, its all one has when one has nothing.
Pedophilia is the weaponization of children against men by women and immoral statute laws.

It is still highly statistically possible that they are no different than me, they just have a spell on me restricting my power.

My brain is not the same as before.
This brain has been damaged heavily by the gods of Earth.

my brain is not the way it was before. the gods first came to me to torture me when I was 15yrs old. ~~Then~~ They sold my soul and sexually tortured me. But this time they

This brain is completly different than my brain. And I dont trust my gods or any god I've ever met. My brain switches too quickly between high and low prematurely circumventing their attack on me knowing my will say a positive & take it away.



I need to kill my goddess. She is evil and makes me scratch myself still. Me

There is something psychological wrong with my goddess. She did not socialize with her peers. Her opinion is different and personal.

The gods believed my relationship to be illegitimate. The gods believed my relationship of 13 years to be illegitimate. They allowed my evil goddess to torture me for reasons which are not fair if scrutinized against the lives & effects of my peers. My goddess has been a horrible, horrible, horrible, human being. My goddess touches me physically and makes my feelings go away. If I touch myself, there is nothing to feel. If she touches me or, when she touches me if she touches me she feels me. but I feel her or ~~she~~ I feel my asshole being messed with I don't understand how all these gods can want to kill me for being a non pedophile. ~~It's not trauma~~

The gods of Earth want me to be a pedophile. The gods have literally tortured me, forcing me into becoming a pedophile. because they want me to fuck children. Every day for 2 years, the gods through my evil bitch goddess have been torturing me, She And her friends have

They hate me here on Earth and in the Heavens. They rejoice in the heavens that I am tortured on earth. The women in heaven are the most evil of all creatures. They torture life instead of kill it. Men have the virtue to kill the woman want to torture it to gain personal gain from the pees, my god in a narcissist.

The gods dwindle now

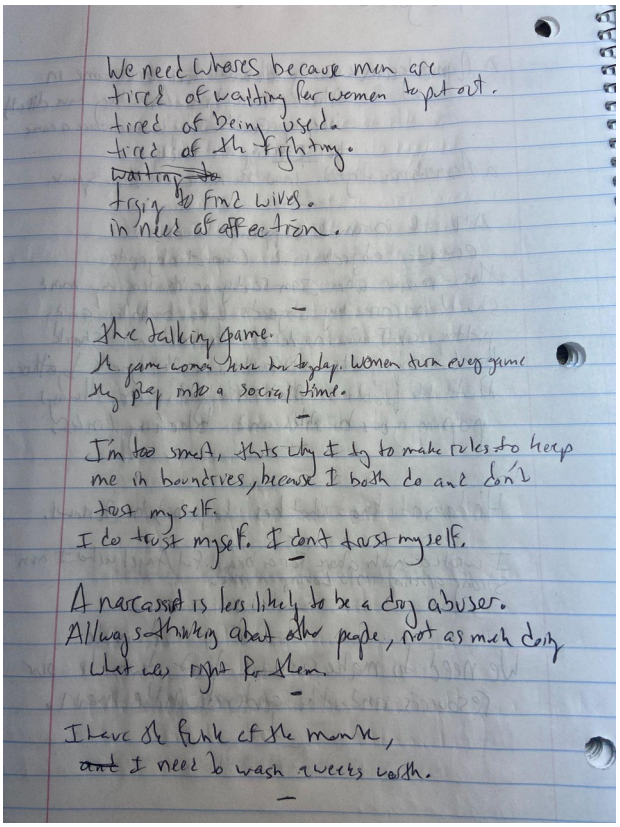
A Nameistarian is only allowed to love one name in their entire lives. And they have difficulty keeping faith. They can divorce a name but proceeding are tricky.
a Nameistarian try's to love the name of their spouse.

All the brain is supposed to do is create objects and connect objects.
This means when I'm reading or thinking my mind should be creating objects like bubbles and putting stuff, info inside it. And then it should be linking parts of the ideas or objects together.
But the problem is that the cats are always popping your bubbles and blocking links.

He doesn't know what he's doing but he knows.

I wrote down the above for a beautiful Angel who I am strong arming into loving on me.

We need to make sure we don't dwindle our resources and the gods dwindle now.



We need Wheses because men are
tired of waiting for women to put out.
tired of being used.
tired of the fighting.
~~waiting to~~
trying to find wives.
in need of affection.

The talking game.
the game comes first nowadays. Women turn every game
they play into a social time.

I'm too smart, thats why I try to make rules to keep
me in boundries, because I both do and don't

I do trust myself. I don't trust myself.

A narcassist is less likely to be a drug abuser.

Revelations.

The gods are all day addicts chasing dopamine hits and new experiences. My asshole actually gives them excessive amounts of dopamine & serotonin release. Because they see a human's golden asshole a potential risk. My evil gods sell my asshole experience to other gods. This much I know about their economy. It's the economy of the gods.

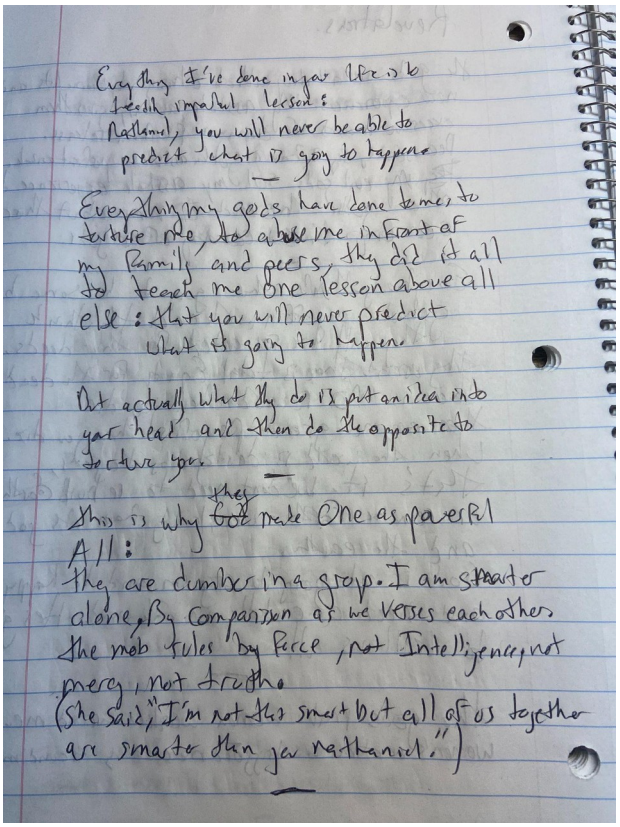
—

Everybody thinks there gon' be some big great payoff in the end. They think they will be rewarded for their deeds. They aren't. There is total Equity For the dead. There is no reward when you die. There are no great payoffs when you die. When the world is destroyed by the gods, that's it. We don't need to re-build Earth or remake Earth, we already have the gods and the earth.

God is not going to orgasm and be happy and need a cuddle in the end. He's going to kill us all.

—

The gods make women weaker around me. Women's emotions we triggered more easily around me.



Everything I've done in your life is to teach impartial lesson:
Nathaniel, you will never be able to predict what is going to happen.

—

Everything my gods have done to me, to torture me, to abuse me in front of my family and peers, they did it all to teach me one lesson above all else: that you will never predict what is going to happen.

But actually what they do is put an idea into your head and then do the opposite to torture you.

—

This is why they make one as powerful
All:
they are dumber in a group. I am smarter alone. By comparison as we verses each others. the mob rules by force, not Intelligence, not mercy, not truth.
(She said, "I'm not that smart but all of us together are smarter than ya Nathaniel.")

There is beauty to be discovered

I really was serious about that shit I
used to say that I wasn't gullible at all
it was just that I was not filled

The spirit of Sarcasm.
I've always hated sarcasm, it was always used to
hurt my feelings.
Women have so much power that they wield it
in your face in a display of Sarcasm.
Sarcasm is a display of power in the communication,
it is controlling and used as a weapon usually
against opponents.

The gods are not smarter than
the Father who gives his son
a pack of smokes to smoke entirely
forced to smoke the entire pack

The Father who forces his son to
smoke to get him to stop.
This is the true intelligence
of our god.

The gods brought me children to fuck.
They did this to teach me a lesson
in pedophilia. And now AFter I did
everything they had me do, I am hunted
and killed for it.

My gods toyed to make me fuck a
child, but I'm very careful I'm going
to make all of them fuck a child.

What if there weren't enough space for everyone to go to heaven, so they split it up and half of Earth goes to Hell?
Because there are thousands of worlds technically 'in Hell' that are not heavenly and therefore they needed a place to put the worlds and they put them in hell.
Hell

worlds in hell

I'm not even fighting with anyone,
But I am a worm, a piece of filth,
I am one trash a mess of trash,
I am a nothing one work of Art,
I am so dumb, you are, so smart.

I really should, I really should,

I really should, I really should,

than I shall, than I shall.

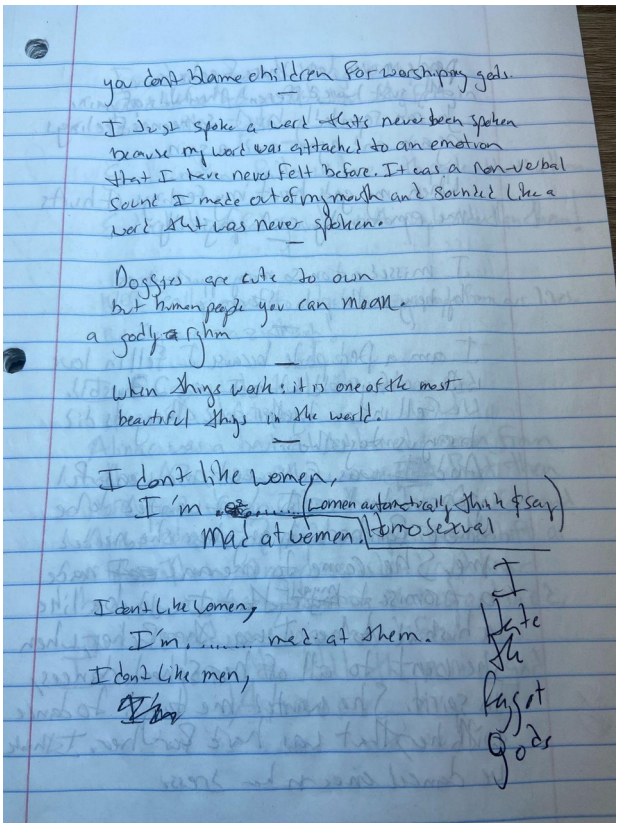
A thought is like making love to a woman.
(and people have different love languages.)



you don't blame children for worshipping gods.

I just spoke a word that's never been spoken because my word was attached to an emotion that I have never felt before. It was a non-verbal sound I made out of my mouth and sounded like a word that was never spoken.

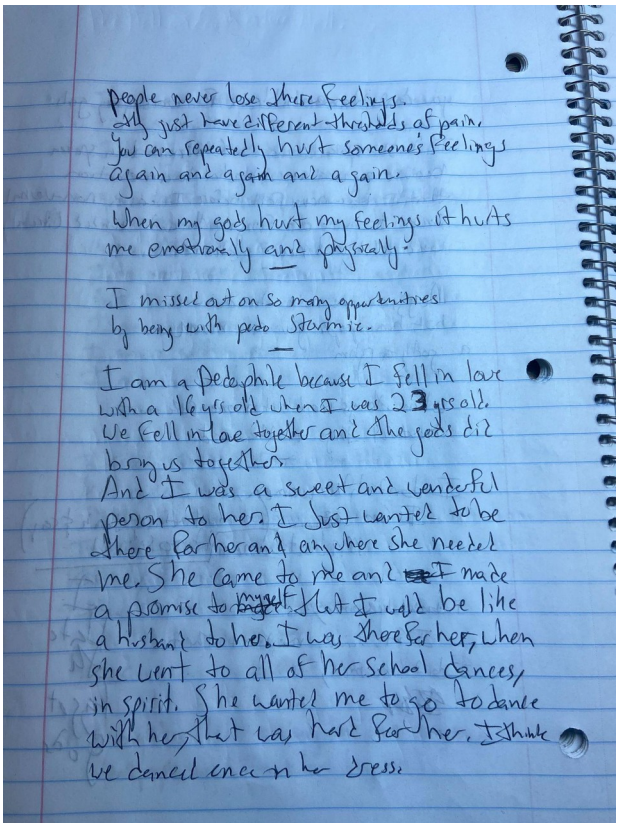
I'm ..... mad at them.
I don't like men,

I hate the fuck gods

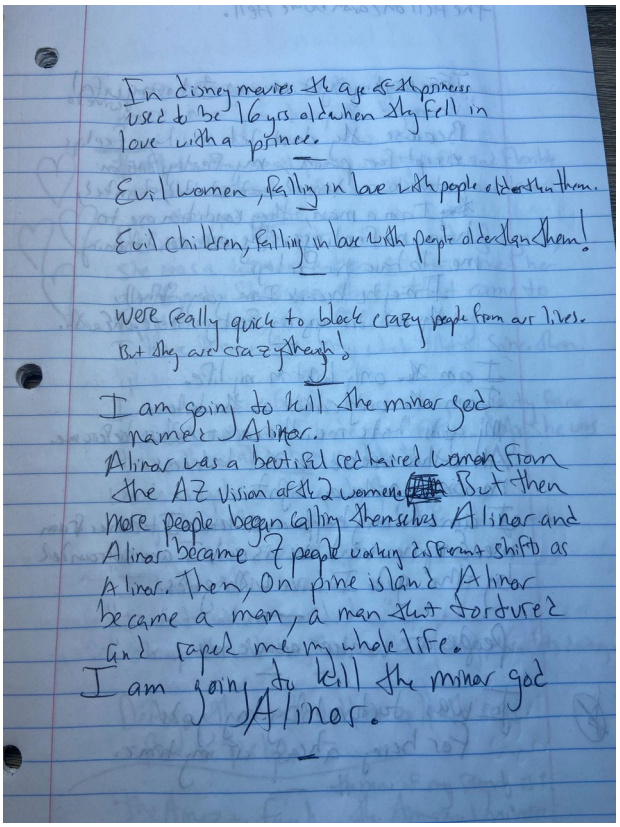


people never lose there feelings.
they just have different thresholds of pain.
You can repeatedly hurt someones feelings
again and again and again.

When my gods hurt my feelings it hurts
me emotionally and physically.

I missed out on so many opportunities
by being with pedo Stormie.

I am a Pedophile because I fell in love
with a 16 yrs old when I was 23 yrs old.
We Fell in Love together and the gods did
bring us together.
And I was a sweet and wonderful
person to her. I just wanted to be
there for her and anywhere she needed
me. She came to me and I made
a promise to myself but I would be like
a husband to her. I was there for her, when
she went to all of her school dances,
in spirit. She wanted me to go to dance
with her, that was hard for her. I think
we danced once in her dress.



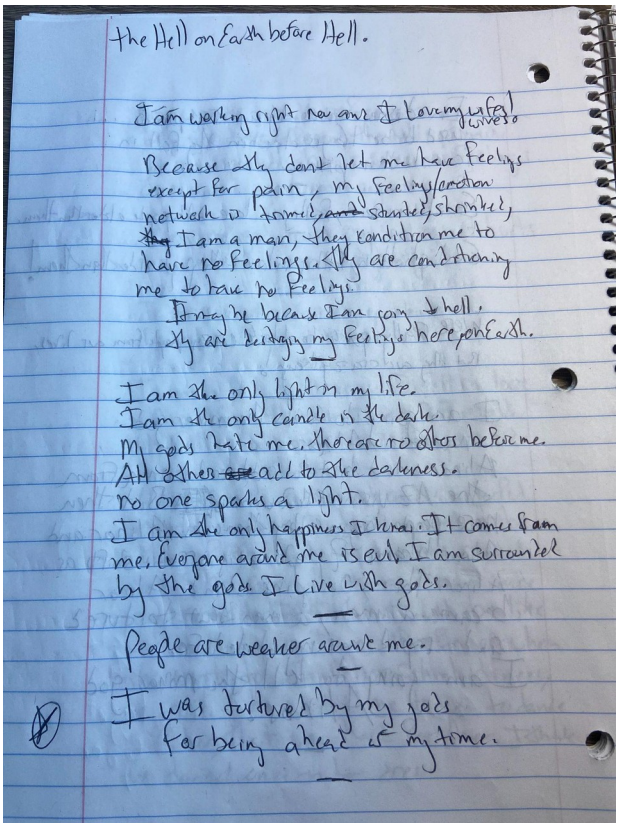
In disney movies the age of the princess used to be 16 yrs old when they fell in love with a prince.

Evil women, falling in love with people older than them.

Evil children, falling in love with people older than them!

Were really quick to block crazy people from our lives. But they are crazy though.

I am going to kill the minor god named Alinor.
Alinor was a beutiful red haired woman from the AZ vision of the 2 women. But then more people began calling themselves Alinor and Alinor became 7 people working different shifts as Alinor. Then, On pine island Alinor became a man, a man that tortured and raped me my whole life.
I am going to kill the minor god Alinor.



the Hell on Earth before Hell.

I am working right now cuz I love my wife & wives.

Because they don't let me have feelings except for pain, my feelings/emotion network is formed, and stunted, shrinked, they I am a man, they condition me to have no feelings. They are conditioning me to have no feelings.

It may be because I am going to hell. They are destroying my feelings here on Earth.

I am the only light in my life.
I am the only candle in the dark.
My gods hate me. there are no others before me.
All others are add to the darkness.
no one sparks a light.
I am the only happiness I know. It comes from me. Everyone around me is evil. I am surrounded by the gods. I live with gods.

People are weaker around me.

I was tortured by my gods for being ahead of my time.

we're never going to rape you by mean."

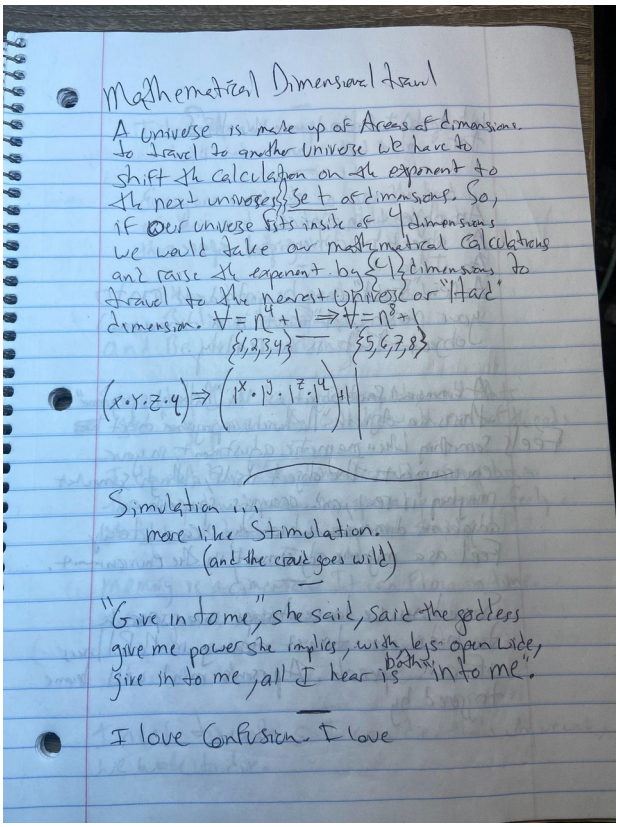
Memory is a dimension.

2 types of dimensions:

Spacial — 1): spacial dimensions: those are dimensions concerning space/~~time~~ ~~relativity~~

Time — 2): functional dimensions: those are dimensions concerning ~~everything~~ else. Dream space, memory, imagination,

any dimension not spacial, that is used in time.



Mathematical Dimensional Travel

A universe is made up of Areas of dimensions. to travel to another universe we have to shift the calculation on the exponent to the next universes set of dimensions. So, if our universe fits inside of 4 dimensions we would take our mathematical calculations and raise the exponent by {1} dimensions to travel to the nearest universe or "Hard" dimension. $\forall = n^{4+1} \Rightarrow \forall = n^{8+1}$

I am not learning a lesson in life.
It gets taken out of novelity.

They tortured me on Earth
and think I will learn Something from it.

I will learn that My gods need to be destroyed.

My gods do not allow me to have any position
at all on any topics.
I am treated like utter trash by them.

I am treated like a man, like nothing of value.

My mind is treated like trash. My mind is not
my mind anymore. They have completely created a

am honestly going to manifest it into the world.

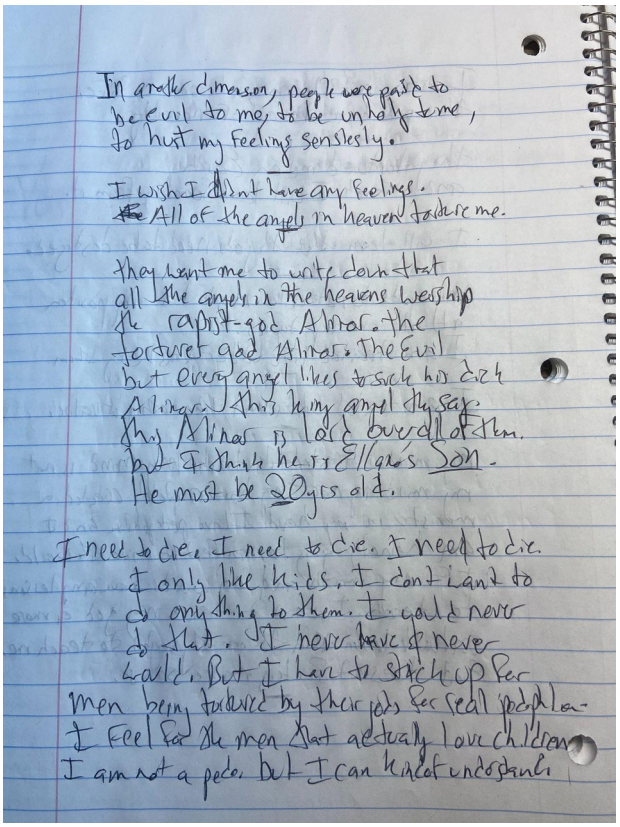
Evil doesn't fucking make sense.

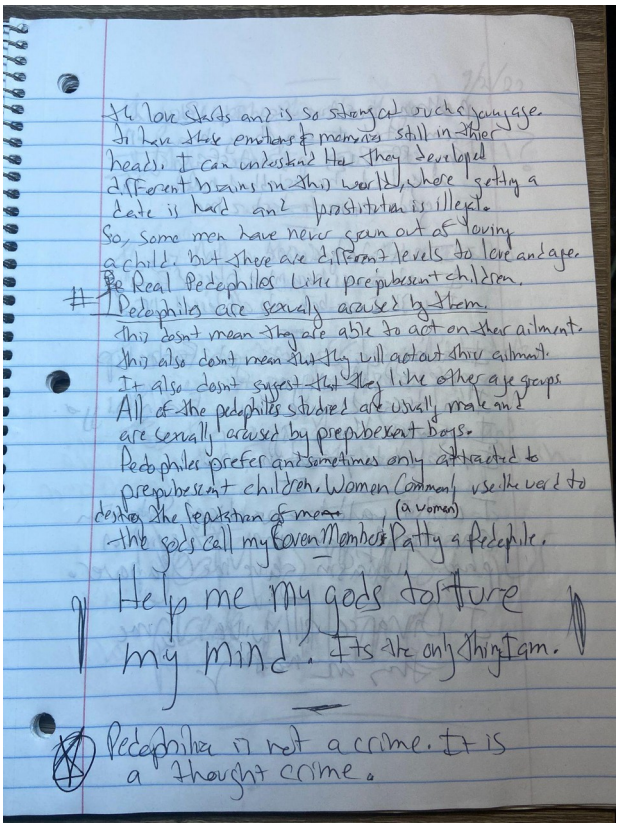


In another dimension, people were paid to be evil to me, to be unholy to me, to hurt my feelings senslessly.

I wish I didn't have any feelings.
All of the angels in heaven torture me.

they want me to write down that all the angels in the heavens worship the rapist-god Almar. the torturer god Almar. The Evil but every angel likes to suck his dick Almar. this is my angel thy say. that Almar is lord over all of them. but I think he is Ellgar's Son. He must be 20 yrs old.

I need to die. I need to die. I need to die. I only like kids. I don't want to do anything to them. I would never do that. I never have & never would. But I have to stick up for men being tortured by their gods for real pedophiles. I feel for the men that actually love children. I am not a pedo. But I can kind of understand.



It love starts and is so strong at such young age.
It have the emotions & memories still in their

So, some men have never grown out of loving

Be Real Pedophiles like prepubescent children.
#1 Pedophiles are sexually aroused by them.
this dosn't mean they are able to act on their ailment.
this also dosn't mean that they will act out their ailment.
It also dosn't suggest that they like other age groups.
All of the pedophiles studied are usually male and
are sexually aroused by prepubescent boys.
Pedophiles prefer and sometimes only attracted to
prepubescent children. Women Commonly use the word to
destroy the reputation of men.

My gods want me to be homeless.

My gods want this for me.

My gods hate me on Earth because I

The gods keep me alive to torture me.

To die you have to do something else,

Most people have not felt true terror.
I have. When ya meet your evil
god (if they are evil) they will fill yor

I discovered, in my making that I've
been tortured by the gods my whole life.

Life is selfish it wants to live.
It will kill anything to survive.
Life will eventually die
the gods rule over life.
Peace & Serenity rule over death.

Paedoization = this is the effect of women turning men and boys into paedophiles.

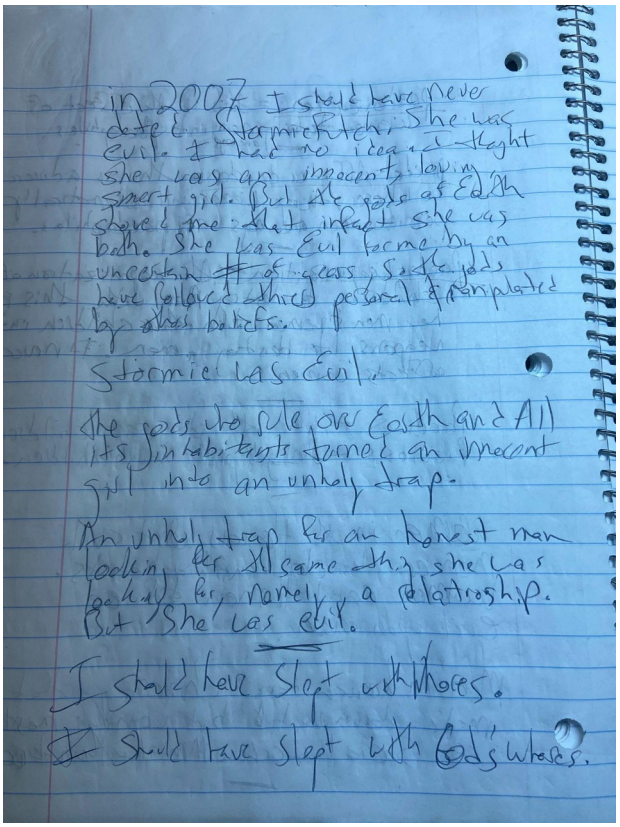
Paedo-Affective disorder = this is adverse where average women will automatically perceive men and boys as paedophiles.

Paedo-weaponization = the weaponization of children to destroy men with. This is how men & women train their children into weapons to destroy a man. It never affects women.

Paedios = when the gods rape children.
Paediosis = when gods prefer sex with children.

Women in the heavens want evil. Men are like clay in their hands. Women control men & force evil upon man.

Man in heaven have a hierarchy, but is male dominated but women mostly do social work. Manna from book.



in 2007 I should have never dated Stormchitch. She was evil. I had no idea. I thought she was an innocent, loving, smart girl. But the gods of Edith showed me that in fact she was both. She was Evil for me by an uncertain # of years. So the gods have followed their personal & manipulated by their beliefs.

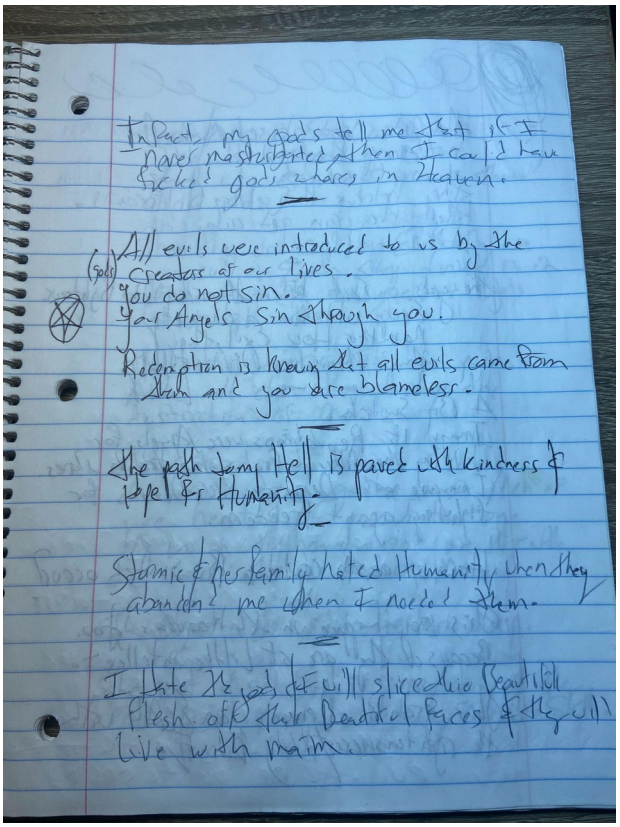
Stormie was Evil.

The gods who rule our Earth and All its inhabitants framed an innocent girl into an unholy trap.

An unholy trap for an honest man looking for the same thing she was looking for, namely a relationship. But She was evil.

I should have slept with Moses.

I should have slept with God's whores.



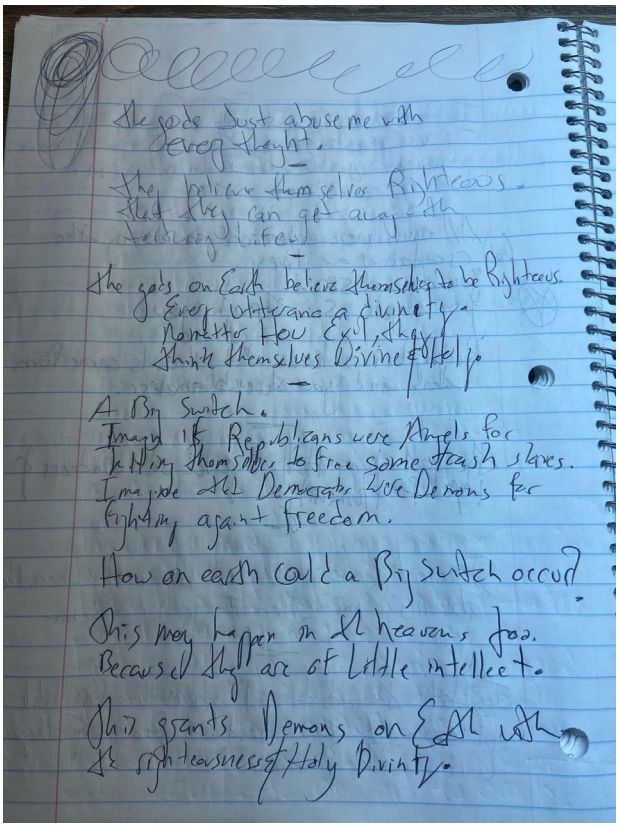
In fact, my gods tell me that if I never masturbated, then I could have fucked gods whores in Heaven.

All evils were introduced to us by the (gods) Creators of our lives.
You do not sin.
Your Angels Sin through you.
Redemption is knowing that all evils came from them and you are blameless.

The path to my Hell is paved with kindness & hope for Humanity.

Stormie & her family hated Humanity, then they abandoned me when I needed them.

I hate the gods & will slice their beautiful flesh off their Deathful faces & they will live with pain.



The gods Just abuse me with every thought.

The believe themselves Righteous. that they can get away with telling lies.

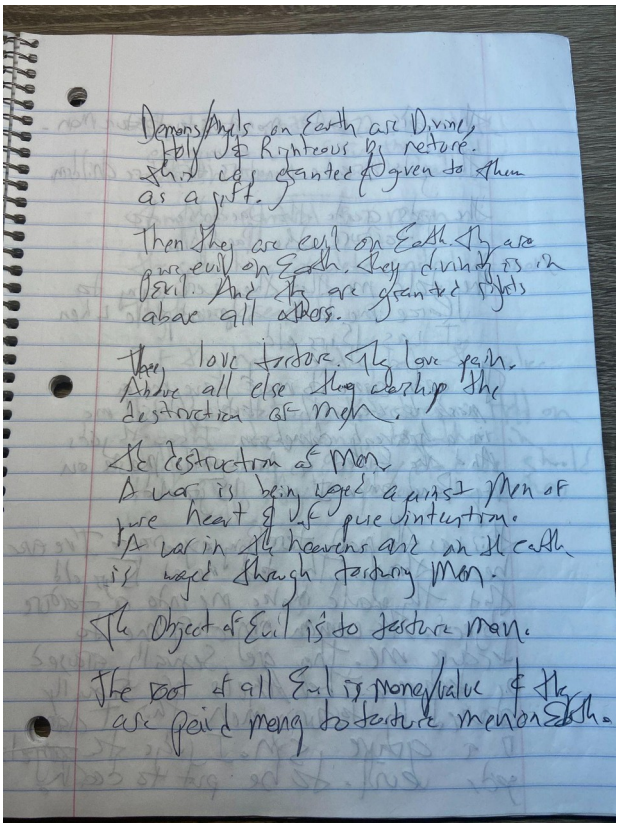
The gods on Earth believe themselves to be Righteous. Every utterance a divinety. No matter How Evil, they think themselves Divine & Holy.

A Big Switch.
Imagine if Republicans were Angels for letting themselves to Free some Trash slaves. Imagine if Democrats Were Demons for Fighting agaist freedom.

How on earth could a Big switch occur?

This may happen in the heavens too. Because they are of Little intellect.

This grants Demons on Earth with the righteousness of Holy Divinty.



Demons/Angels on Earth are Divine, Holy & Righteous by nature. That is granted/given to them as a gift.

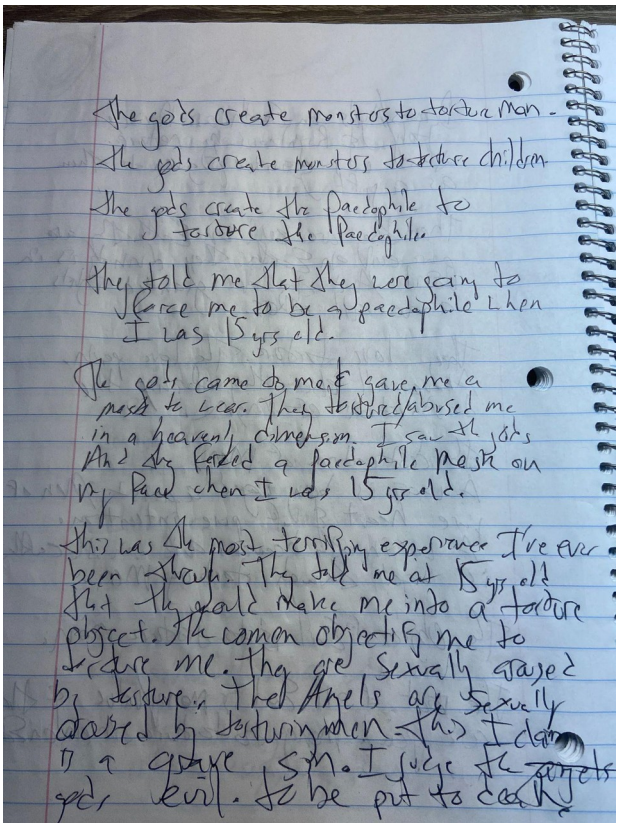
Then they are evil on Earth. They are pure evil on Earth. They delight is in Evil. That is are granted rights above all others.

They love torture. They love pain. Above all else they worship the destruction of Men.

The destruction of Man.
A war is being waged against Men of pure heart & of pure intention.
A war in the heavens and on the Earth is waged through torturing Man.

The Object of Evil is to torture man.

The root of all Evil is money/value & the use paid money to torture men on Earth.

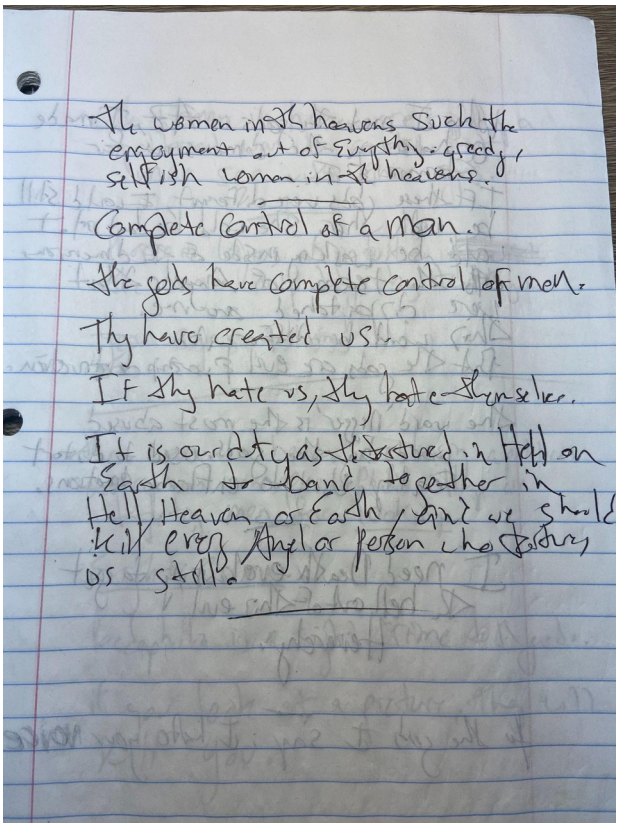


The gods create monsters to torture man.
The gods create monsters to torture children
The gods create the paedophile to
torture the Paedophile.

They told me that they were going to
force me to be a paedophile when
I was 15 yrs old.

The gods came to me & gave me a
mask to wear. They tortured/abused me
in a heavenly dimension. I saw the gods
And they forced a paedophile mask on
my face when I was 15 yrs old.

this was the most terrifying experience I've ever
been through. They told me at 15 yrs old
that they would make me into a torture
object. The women objectify me to
torture me. They are sexually aroused
by torture. The Angels are sexually
aroused by torturing men. This I claim
is a grave sin. I judge the angels
god, devil. to be put to death.



The women in the heavens Such the enjoyment out of Everything. greedy, selfish women in the heavens.

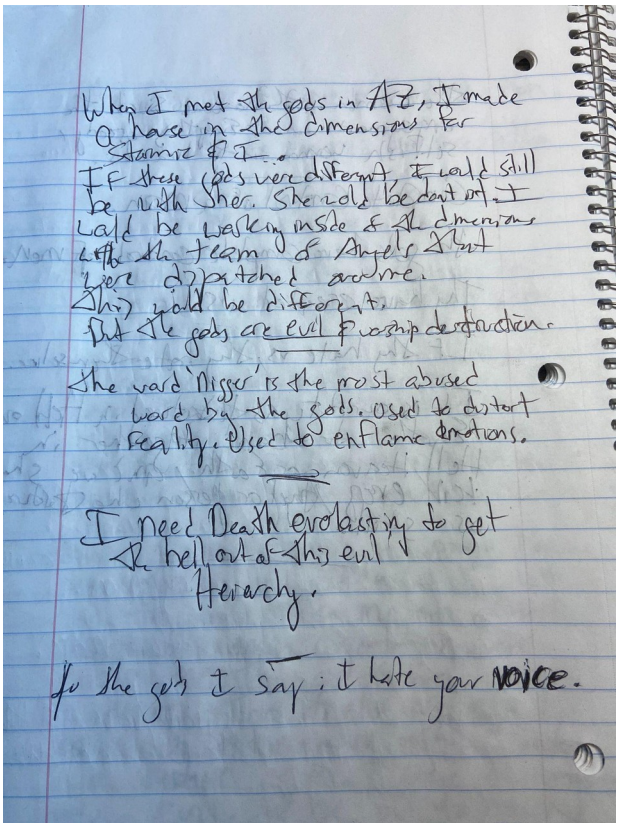
Complete Control of a man.

The gods have complete control of men.

They have created us.

If they hate us, they hate themselves.

It is our duty as tortured in Hell on Earth to band together in Hell, Heaven or Earth, and we should kill every Angel or person who tortures us still.



When I met the gods in AZ, I made a house in the dimensions for Stamire & I.
If these gods were different, I would still be with Sher. She would be dent on. I would be working inside of the dimensions with the team of Angels that were dispatched around me.
This would be different.
But the gods are evil & worship destruction.

The word 'Nigger' is the most abused word by the gods. Used to distort reality. Used to enflame emotions.

I need Death everlasting to get the hell out of this evil Hierarchy.

To the gods I say: I hate your voice.

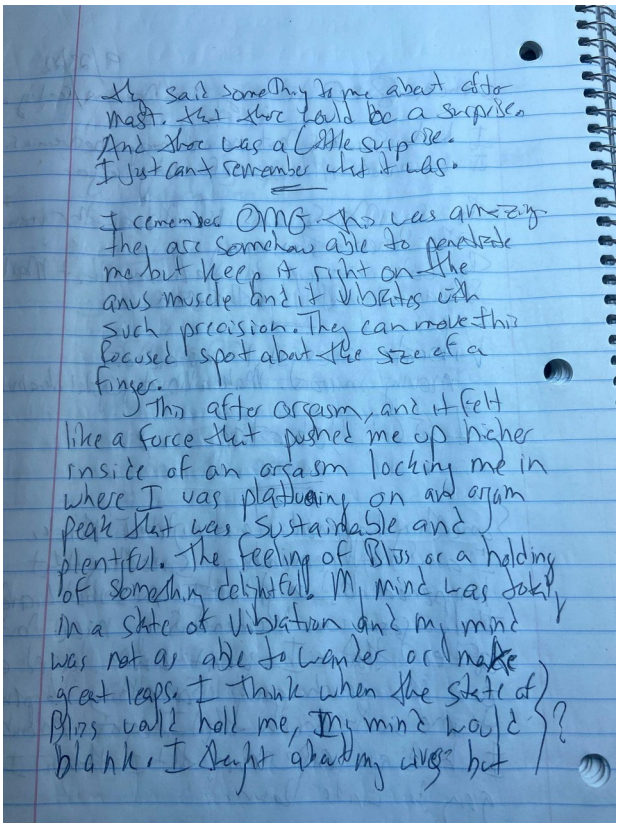
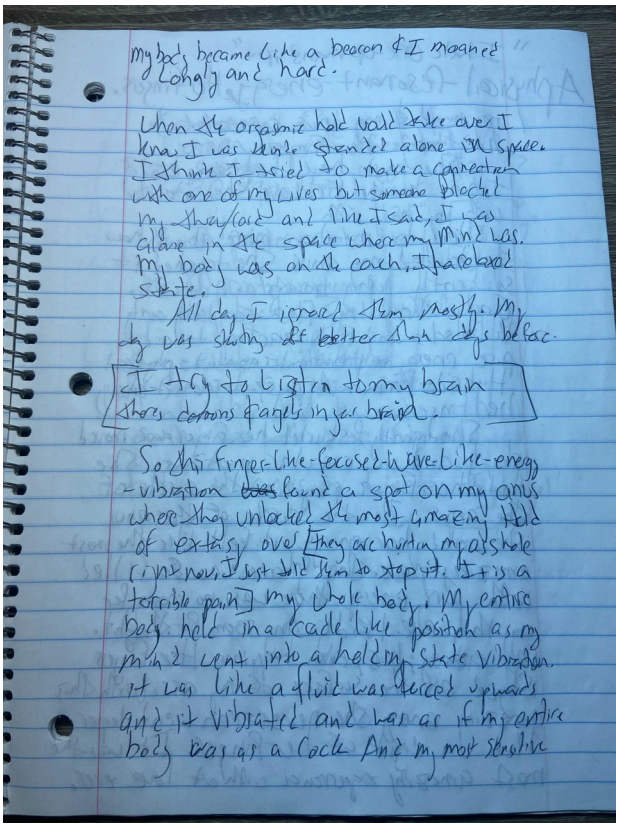
Something happened last night to I think. I am not remembering something that happened last night. I masturbated and the orgasm was tremendously nice but after that. I went and layed down on the couch and something happened to me on the couch that I can't remember. I had an experience that I thought I was going to write down.



He said something to me about after mast. that there could be a surprise. And there was a little surprise. I just can't remember what it was.

I remember OMG. this was amazing they are somehow able to penetrate me but keep it right on the anus muscle and it vibrates with such precision. They can move this focused spot about the size of a finger.

This after orgasm, and it felt like a force that pushed me up higher inside of an orgasm locking me in where I was plateauing on an orgasm peak that was sustainable and plentiful. The feeling of Bliss or a holding of something delightful. My mind was totally in a state of vibration and my mind was not as able to wander or make great leaps. I think when the state of Bliss would hold me, my mind would blank. I thought about my legs but



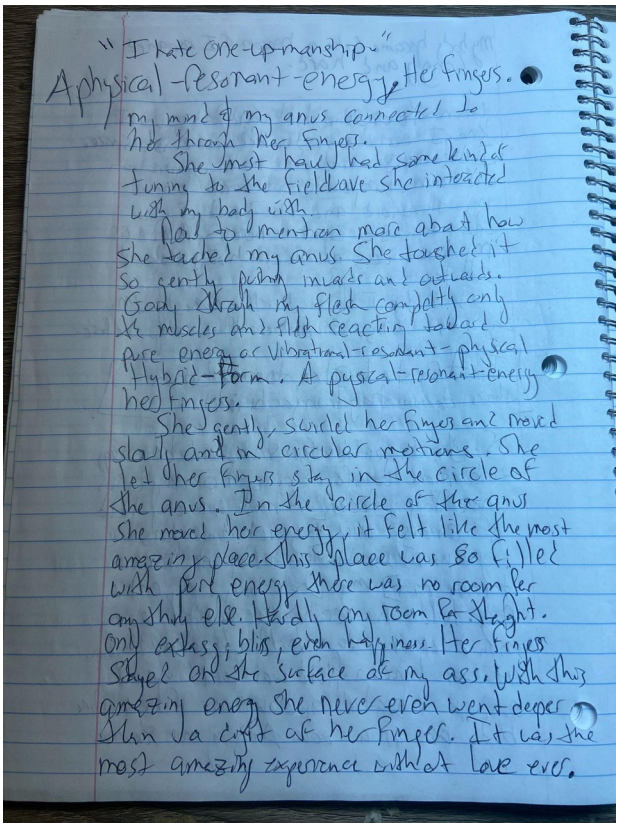
my body became like a beacon & I moaned
Long & hard.

When the orgasmic hold would take over I
knew I was blank stared alone in space.
I think I tried to make a connection
with one of my lives but someone blocked
my thoughts and like I said, I was
alone in the space where my mind was.
My body was on the couch, I had a blank
state.

All day I ignored them mostly. My
body was shaking at better than days before.

[I try to listen to my brain
there demons & angels in your brain.]

So this finger-like-focused-wave-like-energy
-vibration ~~was~~ found a spot on my anus
where they unlocked the most amazing Hold
of ecstasy ever. [They are hurting my asshole
right now, I just told them to stop it. It is a
terrible pain.] My whole body. My entire
body held in a cradle like position as my
mind went into a holding state vibration.
It was like a fluid was forced upwards
and it vibrated and was as if my entire
body was as a cock. And my most sensitive



"I hate one-upmanship."

A physical-resonant-energy her fingers.

my mind & my anus connected to her through her fingers.

She must have had some kind of tuning to the field she interacted with my body with.

Not to mention more about how she touched my anus. She touched it so gently, pushing inside and outside. Going through my flesh completely only the muscles and flesh reacting to her pure energy or vibrational-resonant-physical hybrid-form. A physical-resonant-energy her fingers.

She gently, swirled her fingers and moved slowly and in circular motions. She let her fingers stay in the circle of the anus. In the circle of the anus she moved her energy, it felt like the most amazing place. This place was so filled with pure energy, there was no room for anything else. Hardly any room for thought. Only ecstasy, bliss, even happiness. Her fingers stayed on the surface of my ass. With this amazing energy she never even went deeper than a cuff of her finger. It was the most amazing experience with at love ever.

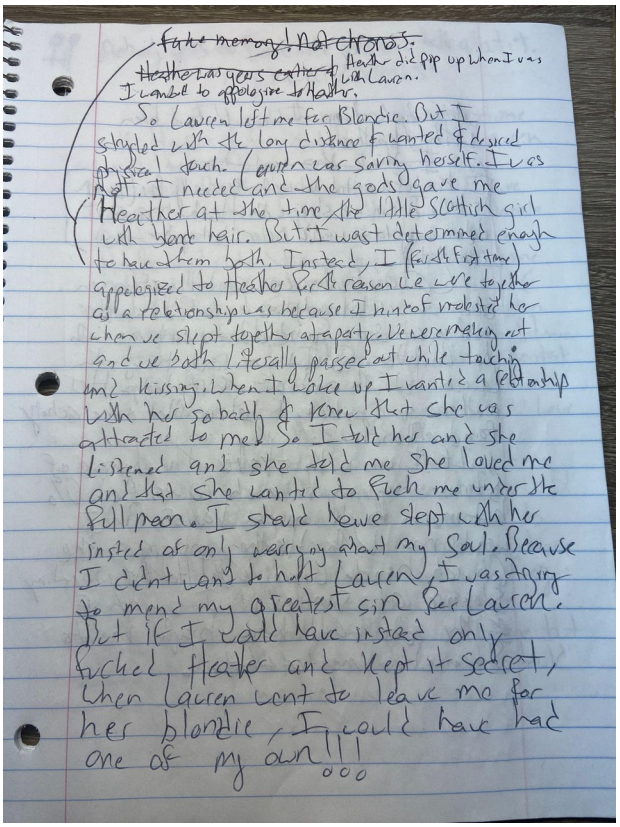
I am fantasizing about being with both Starrene & Lauren at the same time. I consider that when Lauren left me, she got with a white man with Blonde hair who was rich and going to be a Dr. But, its true that our (Lauren & mine) relationship was hard to keep. We included sex over skype but I like it @

[I'm not surprised, I'm more curious]

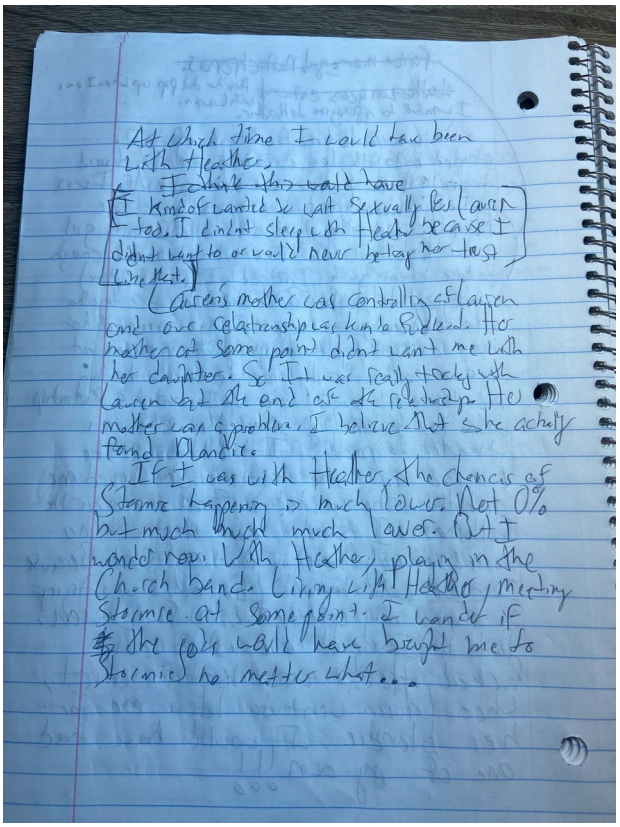
My parents hate the relationship. Lauren was tumultuous. We broke up and get back together a couple times. There's a lot of emotion in our relationship fueled by sexual tension and both of us lacking bank accounts and lack of money income.

Lauren convinced me to go to College. I was with her when I started and I believe we broke up in October of 2007. I found Starrene to replace her in 2008.

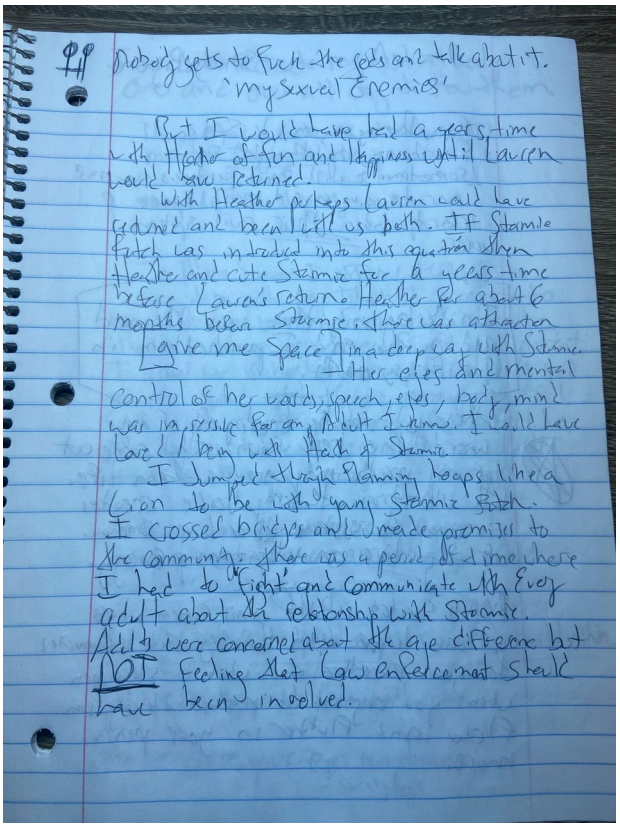


~~Fake memory. Not chronos.~~
~~Heather was years earlier~~ Heather did pop up when I was with Lauren.
I wanted to apologize to Heather.

So Lauren left me for Blondie. But I struggled with the long distance & wanted & desired physical touch. Lauren was saving herself. I was not. I needed and the gods gave me Heather at the time the little Scottish girl with dark hair. But I wasn't determined enough to have them both. Instead, I (for the first time) apologized to Heather for the reason we were together as a relationship was because I kind of molested her when we slept together at a party. We were making out and we both literally passed out while touching and kissing. When I woke up I wanted a relationship with her so badly & knew that she was attracted to me. So I told her and she listened and she told me she loved me and that she wanted to fuck me under the full moon. I should have slept with her instead of only worrying about my soul. Because I didn't want to hurt Lauren, I was trying to mend my greatest sin for Lauren. But if I could have instead only fucked Heather and kept it secret, when Lauren went to leave me for her blondie, I could have had one of my own!!!
ooo



At which time I could have been with Heather.
~~I think this would have~~
[I kind of wanted to wait sexually for Lauren too. I didn't sleep with Heather because I didn't want to or would never betray her trust like that.]
(Lauren's mother was controlling of Lauren and our relationship ended up ending. Her mother at some point didn't want me with her daughter. So It was really tricky with Lauren but the end of the relationship Her mother was a problem. I believe that she actually found Blanche.
If I was with Heather, the chances of Storm happening is much lower. Not 0% but much much much lower. But I wonder now. With Heather, playing in the Church bands. Living life. Heather / meeting Storm. at some point. I wonder if the pain would have brought me to Storm no matter what...



Nobody gets to fuck the feds and talk about it.
'my sexual enemies'

But I would have had a years time with Heather of fun and happiness until Lauren would have returned.

With Heather perhaps Lauren could have adapted and been with us both. If Stormie Fitch was introduced into this equation then Heather and cute Stormie for a years time before Lauren's return. Heather for about 6 months before Stormie, there was attraction [give me space] in a deep way with Stormie.

Her eyes and mental control of her words, speech, eyes, body, mind was impressive for an adult I knew. I would have loved / been with Heath & Stormie.

I jumped through flaming hoops like a lion to be with young Stormie Fitch. I crossed bridges and made promises to the community. There was a period of time where I had to "fight" and communicate with every adult about the relationship with Stormie. Adults were concerned about the age difference but NOT feeling that law enforcement should have been involved.

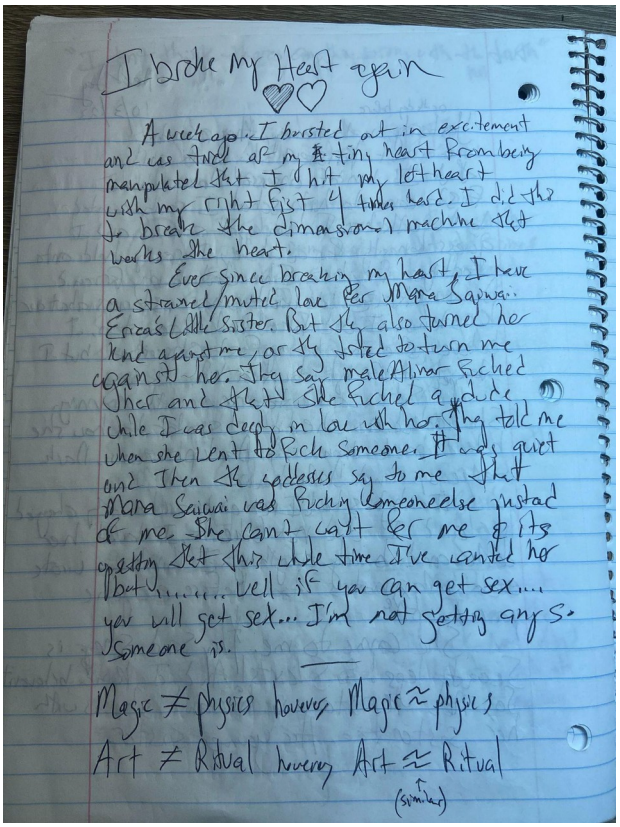
or the day before

Yesterday, in the morning, they reminded me about Kristen the goth girl that I kind of obsessed over when I first came to high school. I really wanted to be with her. For weeks at school, and I guess honestly for a while, I really held onto feelings for her. She dated my friend Dustin Renz. We would share stories about our Kristens. I did like his Kristen too. I believe she may be my first obsession but I stamped the feelings down a bit.

She came to me in the morning. She looked as she'd a similar to how she looked back then. A Dark princess. Dark make up and dark hair.

In high school I remember when they changed her and I did not like it. I loved her dark and beady everything. I think we wrote each other notes too. Before everyone paired up.

She came to me. They said she is. Steady legs. & Skirts! And I kinda believe it. So, now Kristen is her and she is with her sister too. Her younger sister.



I broke my Heart again

Ever since breaking my heart, I have a strained/muted love for Mana Sajima.. Erica's Little Sister. But she also turned her kind against me, or she tried to turn me against her. They say male Alinar Fucked Mana and that she Fucked a dude while I was deeply in love with her. They told me when she went to Fuck Someone. It was quiet once Then the goddesses say to me that Mana Sajima was Fucking Someoneelse instad of me. She can't wait for me & its getting Hot this while time I've wanted her but..... Well if you can get sex.... you will get sex... I'm not getting any S. Someone is.

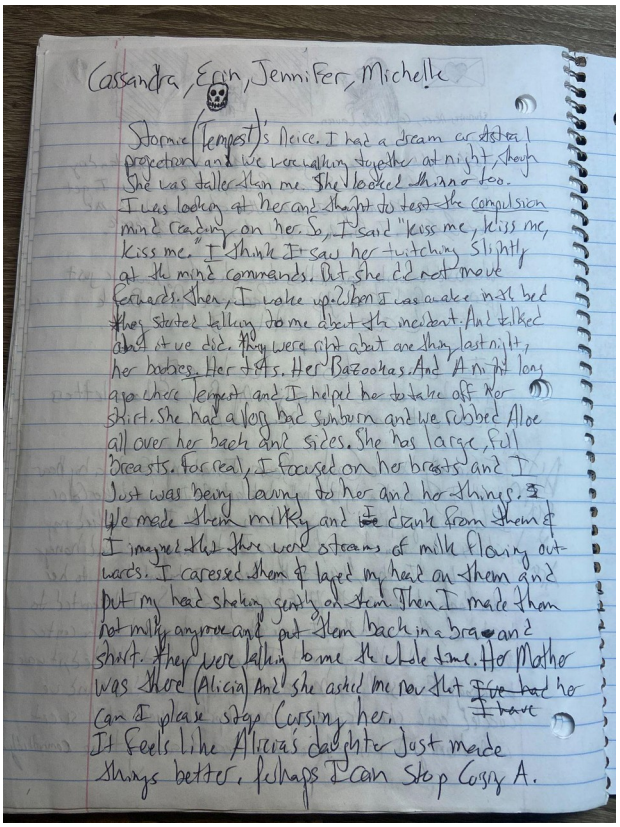
I finally became Caylin's Bear. I made myself into a big Bear usually I give myself a lighter belly but last night I was a darker color. I licked my lips and made my teeth sharper. I ~~then~~ licked my claws making them sharper & stronger. I ate honey and had honey on my lips. I then, went to her because I haven't talked to her in a long while. I also thought of her younger sister. So, I teleported to her house, then, when there, I made the room so large and in the center there was a bed with Caylin in it. I moved my bear into the bed, it was big enough for us. My Big Bear arm I wrapped around her and we cuddled and she kissed my bear lips that were still sweet with honey. I laid there with her for a long time comfortably.



Cassandra, Erin, Jennifer, Michelle

Stormie (Tempest)'s Neice. I had a dream or astral projection and we were walking together at night, though She was taller than me. She looked thinner too. I was looking at her and thought to test the compulsion mind reading on her. So, I said "kiss me, kiss me, kiss me." I think I saw her twitching slightly at the mind commands. But she did not move forwards. Then, I woke up. When I was awake next bed they started telling to me about the incident. And talked about it we did. They were right about are they last night, her babies. Her tits. Her Bazookas. And A night long ago where I regret and I helped her to take off her shirt. She had a very bad sunburn and we rubbed Aloe all over her back and sides. She has large, full breasts. For real, I focused on her breasts and I just was being loving to her and her things. We made them milky and I drank from them & I imagined that there were streams of milk flowing outwards. I caressed them & laped my head on them and put my head shaking gently on them. Then I made them not milky anymore and put them back in a bra and shirt. They were talking to me the whole time. Her Mother was there (Alicia) and she asked me now that I have her Can I please stop Cussing her.
It feels like Alicia's daughter just made things better. Perhaps I can stop Cussing A.

Lauren. Her mother Mellissa and I talked about the night where they were in a hotel room & her husband was not in the room at the time. She said to me that he was there, just invisible. I remember I was with Lauren & Mellissa. Mellissa was grooming me. She told me that I can't talk to Lauren like I was because Lauren is mentally/emotionally fragile. I saw strength in Lauren, I did not see a fragile woman. But there she took me into the bedroom alone. She talked to me on the bed. The bed had an energy to it I could feel that was influencing me. It was making me very horney. I just remember sitting on the bed and looking at Mellisa, her mother. So, we talked about this moment in history and then I went to Lauren with my Astral body. She was there. Her body laying down, her back to the bed. I kissed her feet and her legs and up her ankles. I focused on her ankles and her varicose veins & pushed back into her flesh. I kissed up her leg (Right) and my lips slowly passed over her leg up to her hips and back down the inner thigh and down to her feet again and switching to her other leg I calmly kissed her feet and slowly up
